THE SPRINGTIME DIFFERENCE

Family Owned & Operated Since 1979

Whether it's customer service, manufacturing, shipping, or the owner himself, we're all under one roof, here in Maryland, where the magic happens. When you're talking with us, you're talking to people who love animals and know animals. We're here to listen to your challenges and goals to provide knowledge to help you craft an innovative solution to your need.

Vigorous Testing & Gold Star Standards

We hold ourselves accountable to the strict FDA, NASC, and AAFCO standards to ensure we're formulating the safest, best products possible. Our human-grade raw materials are tested for quality, identity, purity, strength, etc, according to USP standards. Each raw material must pass every test, or we will not use it. Period. We're not in the business of being 'good enough.'

Bundle Deals & Freebies

Investing in your health and your animals' health is serious business. We offer many specials and incentives to help bring down daily costs and extend the supply of supplements to get your money's worth. We have many specials; Buy 2 Get 1 Free, Buy 2 Get 2 Free, and we offer free items and free shipping on qualified orders! We want to do our part to make health and wellness an affordable option.

Made in
the USA

Proud Member Of:

Same Day Shipping

99% of orders received by 3pm ET are shipped that day. Whether you've waited too long to reorder or are trying something for the first time, know that when your order is placed, we get right to work fulfilling it and sending it on its way. Because who likes to wait around?

60-Day Return Window

We get it. Sometimes things just don't work out. Rest assured that every purchase you make comes with our word that you're not going to be stuck with it should something not work out. If you're not satisfied with any product, simply return it within 60 days for a refund or credit towards something else. No questions asked. (Open containers subject to a prorated refund). Shipping fees are non-refundable.

Become a Springtime Savvy Shopper!

We've been here long enough to know many different and unique ways to help you save money on your order! Do you order different Springtime products for yourself, your dog, and your horse? Sometimes all at different times? We have conversations with customers on a daily basis about how to best take advantage of our specials to save on shipping, extend your supplement supply, and reduce your daily cost in the long run. If you need help figuring out the best way to save money on your order, please give us a call. We are here to help you!

SUCCESS STORIES

Cori

Sully

"No substitute for Springtime"

"I have been feeding my dogs **Fresh Factors** for over 20 years. My current corgi - Sully - is sleek and healthy with boundless energy. We lost Cori - our rescue corgi - at 19. She was healthy and energetic until just 6 months before she passed. All of my dogs have also been given the dried **Duck Feet**. I order extra of all so I give some to anyone who asks why they are so healthy."

– Susan S., Maryland, 12/30/22

★ Trustpilot

"13-year-old ... now has more energy than a two year old."

"Just wanted to tell you how much we LOVE **Fresh Factors**! We started using them several years ago with an older dog that had been retired from competitive events because he was showing his age, and just didn't seem to be feeling up to it. After a couple weeks of **Fresh Factors**, he really perked up and was able to go back to training and competing! It was amazing, the difference it made.

We are currently giving **Fresh Factors** to my 13-year-old Border Collie, Rev, who now has more energy than a two year old. I can definitely tell a difference if he misses getting his **Fresh Factors**.

We recommend them to a lot of our clients as well. The remarkable effect **Fresh Factors** has had on several of our dogs has made me want to try them myself! "

– Lori H., Oklahoma

"Springtime Supplements are the Best!!"

"We have been purchasing products from **Springtime** since the late 90's. All of your products are amazing. Online ordering and quick shipping of products are most impressive. There is one product that we have been purchasing since 1997, and that is **Fresh Factors**. We have given them to all of our dogs. We swear by them and swear that the **Fresh Factors** are the reason why our dogs have lived so long. We are an extremely happy customer & recommend **Springtime** to everyone we know."

– Nancy H., Michigan, 2/24/23

Joint Health Chewables & Fresh Factors!

SUCCESS STORIES

"Lola remained active ... her entire 15 years ..."

"We have kept Lola and Lexi on your **Joint Health Chewables** ever since we adopted them. Lola remained active, without any joint issues, her entire 15 years and Lexi, who is now 8, is a very active ranch dog and can handle a full day of activity without any soreness."

– Jeff S., Oregon

"... lessen the joint problems large dogs can have."

"On our most recent visit to our vet, the vet commented on how nice the coat of my eight-year-old Saint Bernard, Tillie, was. She said it is the quality of a much younger dog. Both Tillie and four year old Fiona are therapy dogs, so feeling soft is a plus. I give them **Fresh Factors** and **Joint Health Chewables** because they are BIG dogs and want to prevent and lessen the joint problems large dogs can have. Both are happy and healthy, enjoying life and I feel your products add to that. I often suggest your company to others!"

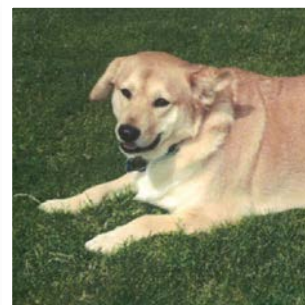

– Bonnie & Steve M., North Carolina

"THANK YOU for a product that exceeds in every area."

"I rescued a dog off the streets in Brownsville, TX last year. He was in horrible shape. Many issues to deal with. For the last few months, he appeared stiff in his hind quarters when he got up from a nap. This increased over a short period of time. X-rays showed no hip issues, so we assumed it was due to a past injury.

My trainer (for behavioral issues) recommended your product, **Joint Health Chewables**. I purchased your product with a great Buy 2 Get 2 Free Special. I triple dosed him for a week, then went to double dosing for another 2 weeks. The difference is AMAZING. My husband was so impressed, he asked me to order the **Joint Health Capsules for People** to support his knees. I did today! I do not write testimonials about products, because I'm never that impressed. This time I just had to write. THANK YOU for a product that exceeds in every area. AMAZING!!"

– Anne R., Texas

Combo - Fresh Factors® & Joint Health Chewables

Combining **Fresh Factors** and **Joint Health Chewables** gives dogs a powerful one-two punch for life-long health. They get **Fresh Factors** for supporting healthy skin, digestion, and joints, plus **Joint Health Chewables** to keep joints lubricated, flexible, and healthy. Using these highly palatable products together works great.

PRODUCT HIGHLIGHTS

- Helps build & maintain strong joints and hips
- Supports healthy and flexible tendons & ligaments
- Great for all ages, including puppies
- Supports digestion & immune health
- Maintains healthy skin and muscle tone
- Promotes an active lifestyle

"... bouncy and energetic."

"I ordered your **Fresh Factors** and **Joint Health Chewables (Combo)** for our 11-year-old greyhound, Bella. Even our regular dog-sitter asked what had changed because she was much more bouncy and energetic.

We recently brought home a second greyhound, Kirby, who came to us with red, scabby patches on his chest and thighs and dry skin. In less than 2 weeks after starting **Fresh Factors**, Kirby's skin is normal and he has stopped scratching. We are hooked!"

SUCCESS STORIES

"A great product and a great value."

The Combo - Fresh Factors & Joint Health Chewables

"This is a fantastic **Combo** supplement for middle aged and senior dogs. I have used the products for many years on my large and active dogs as they started having joint pain and stiffness. My 12 year old Belgian Malinois/German Shepherd still loves the mile romp thru the woods and the occasional squirrel terrorizing maneuvers, although the turns are not quite as tight as they once were. He takes 2 tablets of each supplement once a day and tolerates them well. A great product and a great value. The fact that this is a small company with superior and fast customer service makes it all the better."

– Cathy C., Virginia, 1/6/25 ★★★★★ ★ Trustpilot

DOGS

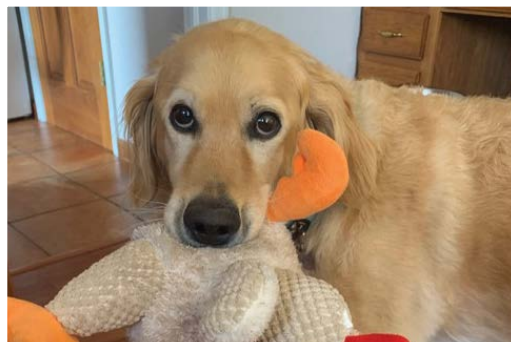

800-521-3212

SPRINGTIME.COM

"... healthy and full of energy!"

"We rescued Ringo 3 years ago. We started giving him **Fresh Factors** and **Joint Health Chewables** immediately. Ringo loves to hike with us and his healthy joints keep him going strong. Ringo is 8, but runs like a puppy! Thank you, **Springtime**, for keeping Ringo healthy and full of energy!"

– Sue A., Colorado

Significant Effect on Discomfort

"My neighbor, a well-regarded dog breeder, has been using your products for her dogs for years. I never purchased any for my dog Poppy, until this year when she turned 12 and started to show signs of physical wear. She went from running and playing to just lying on the couch.

I started her on **Fresh Factors** and **Longevity**, but the boswellia in **Advanced Hip & Joint Chewables** seems to have the most significant effect on any problems she has endured because of her aging joints. She is happy and seems to run more easily. She can now jump up and down without the "oof" she was making before she started the **Advanced Hip & Joint Chewables**. She's smiling more, and she's more playful, even playing with the cat while she grins.

I am not a vet. I am not a medical expert. I am not a breeder. But I know this: I love my dog, and now she feels better. My beloved Poppy is happy! Thank you."

– Patty K., Massachusetts

SUCCESS STORIES

Works for the whole crew!

"We use this supplement [**The Combo**] on our 14 year old Mix, 11 yr old Boxer, 4 yr old Lab and 3 yr old Boxer and all are doing very well with mobility and we attribute this to your quality."

– Susan N., West Virginia, 4/15/25

★ Trustpilot

"They are a must have in my household!"

"I first started using **Springtime** for their **Fresh Factors** when my 4-H show dog at 6 mon. of age started showing signs of hip dysplasia. My parents couldn't afford to take her to the vet and someone gave us a **Springtime** magazine. We decided to give it a try, and the **Fresh Factors** allowed her to not only continue with obedience classes but she also rocked agility. Fast forward almost three decades (and many dogs and **Springtime** products later - my family is a true believer!), I have my 6 year old chihuahua x beagle mix on **Fresh Factors** and **Joint Health Chewables**. I didn't realize how much these were helping my very active dog until he had tummy issues and I took him off them for 72 hours and I noticed a change in him. These [supplements] help him stay young, I cannot express how thankful I am to have found **Springtime** products! They are a must have in my household!"

– Lacey F., Texas, 5/3/25

"... my big golden lived to the age of 18!"

"Years ago, at my sisters suggestion, I ordered **Fresh Factors** for my 12 year old Golden retriever who was struggling. Thinking I was going to lose him I was willing to try anything. Well, long story short, he rebounded and I had him for another 6 years! That's right, my big golden lived to the age of 18! Flash forward and now my 12 year old beagle was starting to show signs of aging. I immediately ordered **Fresh Factors** and she has improved. Not wanting to see my other (younger) dogs decline I decided to put them all on it proactively."

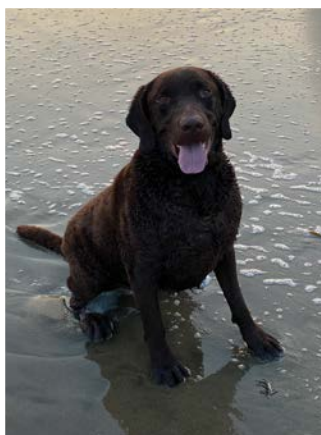

– Patricia C., Indiana, 6/1/25

★ Trustpilot

SUCCESS STORIES

All the support he needs!

"I have a 9 year old fabulous big boy, a Chesapeake Bay Retriever, and these **Fresh Factors** tablets help him with his digestion and assure me he is getting all the joint and skin support he needs."

– Barbara R., California, 1/10/25

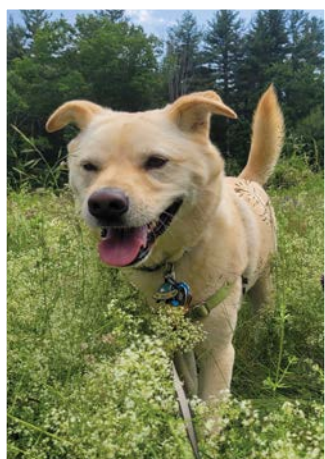

★ Trustpilot

Improved in less than 2 weeks!

"I just wanted to say your company is the greatest! I have a golden Lab who is 9 years old. He was starting to develop hip and joint problems and a friend of mine referred me to your company. He was on the **Advanced Hip & Joint Chewables** for less than two weeks and I could tell a huge difference in him! I used to take him for a walk every night but before the **Advanced Hip & Joint Chewables** he really wasn't interested. Now he's up running around and playing again!

He also developed allergies where he was constantly licking! After reading the side effects of the medication he used before, I didn't want to give it to him again! I chose to use your supplements and he has quit licking his paws! In addition to **Advanced Hip & Joint Chewables**, he is now on **Fresh Factors** and **Longevity**. I would like to say thank you!"

– Dena C., Missouri

"... improvements I almost couldn't believe."

"I have given these supplements to all of my dogs if they're having issues and have seen improvements I almost couldn't believe. I recently started giving [**Fresh Factors**] to my 3yr old dog who yelped when people pat his back and he no longer does that, he has more energy and is a seemingly happier dog. I absolutely love these supplements and know they work!"

– Faith M., Massachusetts, 7/14/25

 800-521-3212 or email
feedback@springtime.com*

SINGLE INGREDIENT COST EFFECTIVE

J-Flex Concentrate p. 19

This single ingredient supplement is pure, high-grade chondroitin sulfate. As well as being extremely cost effective, it is virtually tasteless and odorless making it a great option for picky eaters.

OUCH!

Advanced Hip & Joint Chewables p. 14
Advanced Hip & Joint Formula p. 17

If your dog is ouchy and struggling with mobility issues or discomfort, you'll want to look at our supplements containing Boswellia for maximum support! To learn more about the benefits of Boswellia, flip to page 16.

Joint Health OA+

BUY 2 GET 1 FREE!

Joint Health OA+ is designed to support all the structures in a joint; cartilage, synovial fluid, ligaments, and tendons. Chondroitin sulfate, glucosamine, and MSM support healthy hips and joints, while hyaluronic acid helps maintain joint lubrication and manganese promotes bone health. Combined, these ingredients will provide your dog's joints with complete support to keep them active. **Joint Health OA+** is the powdered version of **Joint Health Chewables**, making it an economical choice.

PRODUCT HIGHLIGHTS

- Supports normal lubrication in joints for ease of movement
- Helps keep tendons & ligaments healthy & flexible
- Maintains healthy hips & joints
- Promotes bone health
- Helps with mild discomfort associated with aging
- Supports cartilage surface health
- Great for growing or aging dogs

PRODUCT FACTS

Active Ingredients per ½ scoop (900 mg):

Methylsulfonylmethane (MSM)	225 mg
Glucosamine HCl (shellfish source)	159 mg
Chondroitin sulfate (bovine source)	114 mg
Ascorbic acid (vitamin C)	96 mg
Hesperidin	30 mg
Citrus bioflavonoid complex	24 mg
Hyaluronic acid	5 mg
Manganese	2 mg
Rutin (vitamin P)	1 mg

Inactive ingredients: Carrot powder.

Directions for Use:

Daily Maintenance Dose:

Good: ½ scoop per 20 lb body weight

Better: 1 scoop per 20 lb

Best: 1½ scoops per 20 lb

Important: For best results, start off with just a sprinkle for the first few days and increase gradually. Do not be discouraged if the dog does not take to the change immediately. Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity, or if faster, more dramatic benefits are desired. Larger doses are recommended for older dogs.

"It has changed her life."

"My 10-year-old chocolate Lab, Fisher, has struggled with stiffness and general joint issues in all four legs her entire life. She has always been an active dog with a strong spirit but with four surgically repaired legs we had to manage her regularly with medications and she would have issues for a day or two after hiking or even chasing a ball.

A few years ago, my mom – a former veterinarian – saw an ad for **Springtime Advanced Hip & Joint Chewables** and recommended that we give it a shot. It has changed her life.

At 10 years old she's as active as she was as a puppy. I attribute her continued activity and overall health to **Springtime Supplements**. I would highly recommend **Advanced Hip & Joint Chewables** to anyone with an older dog or a dog with joint issues."

– Ben G., Virginia

SUCCESS STORIES

Great for Senior Dogs!

"We've been using these [Advanced Hip & Joint Chewables] for years with our senior dogs. Seems to extend their ability to walk and run without discomfort or pain well into their senior years."

– Fred M., Maine, 4/13/25

★ Trustpilot

"... your products add both quality and years ..."

"Thank you for assisting me with our order for our precious son, Charlie. He asked me to let you know how much he likes his **Fresh Factors** and **Advanced Hip & Joint Chewables**. He thanks you from the bottom of his heart! He reports great improvement and increase in his overall energy level and joint comfort. We agree with Charlie's assessment... Energy level is way up, and ability to distance walk without hip discomfort has greatly improved to the point he shows no negative symptoms vs before when his walks had to be reduced by 75% or so. We had the same experience with Charlie's older brother, Moses (RIP 2012). In our experience your products add both quality and years to our precious friends' lives. A home run!! Thanks so much."

– George P., Florida

Kasha Is Like a Puppy Again!

"Our 6½-year-old German Shepherd, Kasha, had stiffness in her legs and back. I found your **Advanced Hip & Joint Chewables** and started giving them to her immediately. Within one week, she was acting like the little puppy she was before. She is back to playing ball three times a day. We love that this product is natural and works so well on her. Thank you so much for giving us back our sweet little girl with her energy and spirit."

– Judith F., Pennsylvania

BOSWELLIA SERRATA

Treasured since biblical times for potent health properties & reducing discomfort.

Boswellia (also known as frankincense) is an herbal supplement with potent health properties made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for its health properties, including support for a healthy inflammatory response and reducing discomfort.

Studies have shown that boswellic acid supports a normal inflammatory response by blocking the enzyme 5-lipoxygenase which then inhibits the synthesis of leukotrienes. It has also been shown to support healthy cartilage.

In Switzerland in 2004, a veterinary clinical trial was conducted comparing joint health before and after ingestion of extract of boswellia serrata.

The extract was given once a day with food at 400mg/10kg of body weight for six weeks. After just two weeks, researchers noted that 71% of the dogs showed improvement. By week six, significant positive changes were shown in mobility and comfort. A few dogs had brief, reversible episodes of loose stools.

“By week six, significant positive changes were shown in mobility and comfort.”

(From Dietary support with Boswellia resin in canine inflammatory joint and spinal disease. Reichling J, Schmokel H, Fitzi J, Bucher S, Saller R. Web. 5 December 2010, PMID: 14994484.)

PRODUCT FACTS

Active Ingredients per ½ scoop (900 mg):

Methylsulfonylmethane (MSM)	222 mg
Glucosamine HCl (shellfish source)	159 mg
Boswellia serrata	144 mg
Chondroitin sulfate (bovine source)	114 mg

Inactive ingredients: Carrot powder.

Directions for Use:

Daily Maintenance Dose:

Good: ½ scoop per 20 lb body weight

Better: 1 scoop per 20 lb

Best: 1 ½ scoops per 20 lb

Important: For best results, start off with just a sprinkle for the first few days and increase gradually. Do not be discouraged if the dog does not take to the change immediately. Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity, or if faster, more dramatic benefits are desired. Larger doses are recommended for older dogs.

HarborWinds Newfoundlands

CHONDROITIN SULFATE

The body naturally produces a molecule called chondroitin for the formation and maintenance of joints. The good news is that it can be supplemented to support joint health and comfort.

Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and it is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement to maintain healthy cartilage, joint lubrication, and healthy skin, nails, and hair.

Not All Chondroitin Is Created Equal

The chondroitin used in dietary supplements is extracted from the cartilage and connective tissues of animals. The most common animal sources are cow, pig, chicken, and shark. Chondroitin varies depending on the source, and scientists have separated it into three distinct classes: A, B, and C. This is important because chondroitin A has greater health benefits than B or C, and some animal sources have more chondroitin A than others. For instance, chondroitin sulfate sourced from beef trachea cartilage (used by **Springtime**) has among the highest concentrations of chondroitin A. Conversely, some products on the market are labeled as 100% chondroitin but contain little to no chondroitin A, rendering them woefully ineffective.

Chondroitin sulfate is one of six related substances called glycosaminoglycans (GAGs), which are also referred to as mucopolysaccharides. Adequate amounts of chondroitin are vital for normal joint function and maintenance, as well as many other self-healing mechanisms.

SPIRULINA

This global super-algae supports a healthy immune system for a variety of benefits.

Spirulina is a microscopic blue-green vegetable algae that is considered to be one of the most nutrient-dense ingredients available. Spirulina is a source of highly absorbable protein, mixed carotenoids, and other phytonutrients, B vitamins, iron, chlorophyll, GLA, and essential amino acids, as well as other trace minerals and nutrients.

Spirulina has emerged as an especially potent and healthy ingredient for humans and animals alike. For centuries, many cultures have used Spirulina as a significant food source and an essential nutrient for health and vitality.

Safe and non-toxic, this natural algae supports the endocrine and immune systems. Spirulina is perhaps best known for its ability to help support a normal allergy response. High in antioxidants, spirulina is thought to help protect the body from free radicals that are found in the environment. Spirulina has also been shown to help promote gastrointestinal health.

The B vitamins in spirulina support the nervous system. In addition, spirulina supports the detoxifying role of the kidneys and liver.

Springtime uses only the highest-grade spirulina, chosen for purity and freshness. Modern culture systems are strictly controlled, assuring 100% purity of the strain for a safe and reliable supply. And, as with all **Springtime** products, we choose to manufacture to USP standards, which include testing for heavy metals, pesticides and contaminants.

"I was giving Alfie two a day for a general immune boost, but they are cleaning his teeth, too!"

"Just wanted to let you know that my dogs are receiving an unexpected benefit from eating the **Spirulina Chewables**. In a recent annual check up, the vet remarked how clean the teeth of my 9-year-old Springer-Lab mix were for his age. I started thinking, and all I could figure was that it must be from chewing the **Spirulina Chewables**!"

I was giving Alfie two a day for a general immune boost, but they are cleaning his teeth, too! Now I give them to my 3-year-old Corgi/Beagle mix, Jenny, too! Thanks, **Springtime**."

– Kathi F., Illinois

BEE POLLEN

**SUPPORTS ENERGY,
IMMUNE HEALTH,
DIGESTION, & MORE.**

Bees produce more than honey! They collect granules of flower pollen as a food source for the adult bees in the hive. Bees would not have their famous reputation for staying busy without flower pollen. Bee-collected pollen is densely nutritious, and it has been treasured for its health properties for thousands of years for both people and animals. The benefits of bee pollen include:

- It helps support healthy muscle condition, essential for strength & endurance
- Live enzymes support healthy digestion
- It supports a healthy immune system
- Contains antioxidants, vitamins, and minerals

The key benefit of bee pollen is that it is loaded with antioxidants, vitamins, minerals, protein, and live enzymes. Because of its dense nutrition, bee pollen uses include; supporting energy needs, muscle strength, healthy digestion, and immune support. Bee pollen is taken as a supplement in its naturally occurring granule form, ground into a fine powder, or as part of an ingested supplement, such as a pill or chewable tablet.

Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are essential for every biochemical function of the body. Enzymes are perhaps the most important of the health-giving plant factors. They are destroyed by high

temperatures (130 degrees) – cooking! Enzymes are the essential triggers for the metabolic machinery of every living thing, from daffodils to buffalo. The enzymes in raw foods are necessary because they help support the body's enzyme systems. Enzymes are the life principle of every living cell.

Bee Pollen for Seasonal Support

Bee pollen supports the immune system. When the immune system is functioning properly, it is less likely to overreact to non-threatening stimuli, like seasonal allergens, with annoying sneezing, coughing, and itching. Typically it is not necessary to consume local bee pollen to achieve the health benefits. This is a common misconception. The immune system benefits of bee pollen operate with a biological mechanism in which the origin of the bee pollen makes no difference whatsoever.

"I am astonished."

"Months back my Corgis, Callie and Cooper, needed digestion support. We had struggled for months and had done lab testing, food changes and so on with very little difference. Then finally, we tried **C-Complex**, and within a few days, I saw normal stools! Wow!

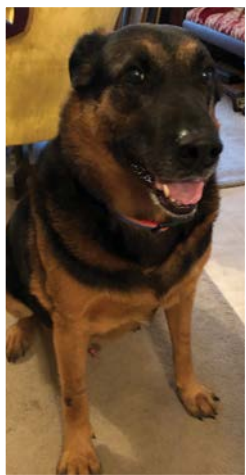

Later, we stopped the **C-Complex**, and all other supplements for a while. . . . However, both Callie and Cooper had injured themselves while playing, and were pretty uncomfortable. I decided to start sprinkling **C-Complex** on their food one Saturday morning, and did it again that night. We got up on Sunday morning to both Callie and Cooper running through the house! Both were totally putting their weight on all four legs! I am astonished.

I am sharing with my fellow Corgi owners. Thank you!"

– Lori H., Illinois

SUCCESS STORIES

"Thank you, thank you, thank you!"

"I just can not thank you enough for your **Longevity**. My dear Marley had this issue for years, after he would eat or drink he would burp and spit up. It was getting worse with more and more substance coming up. I tried everything over-the-counter and prescription, but nothing worked. I spent so much money and time cleaning up. Then I tried your **Longevity**! I purchased one container first because Marley is a very discriminatory eater. I thought he will not like it. He does not like it, HE LOVES IT!! He has stopped spitting up, his itching has stopped due to a yeast condition on his skin, and it is easier for him to get up! These are the things I have witnessed. I am sure **Longevity** is doing a lot more internally and helping him feel better. Thank you, thank you, thank you! "

– Jude M., Arizona

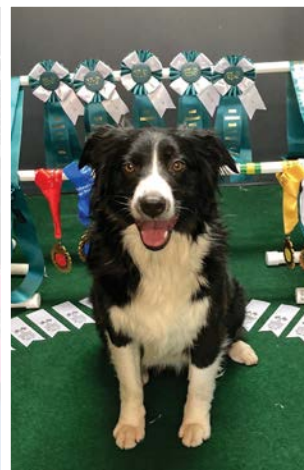

"... happy, healthy performance dog."

"Easy to serve on top of dog food. My dog enjoys the flavor and readily eats the supplement [**Bee Pollen**]. Results are a happy, healthy performance dog."

– Jan S., Illinois 5/25/23

★ Trustpilot

"The quality...is impressive and they REALLY work!"

"This is Ozzie. She is my youngest Labrador Retriever. As a breeder of Labradors, I rely on several of **Springtime's** fine products. I take a holistic approach to raising my Labs and keep things as natural as possible, so **Bug Off Garlic** is a must in their diet. I do not use topical chemicals or oral medications to repel ticks and fleas and **Bug Off Garlic** keeps my 'pack' free of internal parasites. I keep **Bee Pollen**, **Omega 3-6-9**, and **Skin & Coat Oil** on hand at all times. The quality of **Springtime** products is impressive and they REALLY work!

I had a phone call just last week from someone that was on the **Springtime** website, noticed a picture of my husband and me with our Labradors, and wanted to know if the 'testimony' was really real. I get several calls a year from people that see my dogs on the website. They call to ask about the quality and effectiveness of **Springtime** products and I am always happy to sing the praises of **Springtime** and their fabulous products."

– Sandy S., West Virginia - Red Barn Ranch and Labradors, LLC

Skin & Coat Oil

BUY 2 GET 1 FREE!

DOGS

COCKEYSVILLE, MD 21030

P.O. BOX 1227

SPRINGTIME

Skin & Coat Oil is a blend of seven of the most nutrient dense oils. Its full-spectrum antioxidants keep it fresh and safe – no refrigeration necessary. Those same nutrients support a pet's cellular integrity, contributing to overall health. Its naturally mild taste and unique aroma are readily accepted by cats and dogs.

PRODUCT HIGHLIGHTS

- Nutritional support for healthy coats
- Helps maintain skin health
- Produces visible results quickly
- Super easy to feed and great taste
- Generous dose at low cost per day
- Stores at room temperature

PRO TIP ▼

GREAT SOURCE OF CALORIES!

For underweight pets, it is safe to double or even triple the dose for added calories. Approximately 130 calories/oz.

Guaranteed Analysis (per 1/4 tsp serving):

Crude protein (min)	0.0%
Crude fat (min)	97.0%
Crude fiber (max)	0.5%
Moisture (max)	1.0%
Ash (max)	0.5%

Ingredients: Rice bran oil, coconut oil, extra virgin olive oil, pumpkin seed oil, sesame seed oil, sunflower seed oil, and walnut oil.

Directions for Use: Simply top dress on food once or twice daily.

Dogs: Give ½ to 1 full tsp per 40 lb

Cats: Give ¼ tsp per 10 lb

"... so incredibly soft."

"I would like to share how amazing I think the [Skin & Coat Oil] is for my dog. My dog Saige has it every day on her breakfast kibble and her coat is so incredibly soft. She is complimented all the time when we are out, especially at the vet's office. I love this product so much!"

– Jill D., Connecticut

SUCCESS STORIES

Skin & Coat Oil - Unbelievable Results

"My 9 year old black lab came back to my house as a rescue at 7 years old. He looked like a skunk. The coat on his back was so bleached out from the sun and no shelter. Within 6 months his coat was unbelievable, and everyone that knows him comments on his coat and how beautiful it is."

– Gail T., Pennsylvania, 4/11/2025

★ Trustpilot

"... healthy and shiny coat ..."

"We began using **Skin & Coat Oil** for our dog when she started becoming 'itchy'. We have used **Springtime Supplements** for years and trusted the oil would provide relief. Reagan (our 11 year old, border collie mix) gets so many compliments on her healthy and shiny coat and remains itch free. Reagan enjoys the taste of the oil on her food, too!"

– Wendy I., Maryland, 5/29/25

★ Trustpilot

No More Itchy Skin!

"My pups have been using **Omega 3-6-9** for many years. 2 of our lab mixes came to us with flaky, itchy skin. Just a couple weeks of the Omega capsule cleared up the issue. When winter comes, the air gets dryer and they get itchy again, I just give 2 capsules instead of 1. Their coats are shiny and beautiful!"

– Theresa S., Wisconsin, 1/10/2025

Omega-E Oil

BUY 2 GET 1 FREE!

DOGS

COCKEYSVILLE, MD 21030

P.O. BOX 1227

SPRINGTIME

Omega-E Oil for Dogs helps maintain skin health, normal histamine levels, and a healthy immune system. It can be helpful for seasonal allergies and supports muscles, ligaments, joints, and a healthy inflammatory response. This plant-based formula provides complete and balanced full spectrum omega 3, 6, and 9 fatty acids, plus the added benefits of vitamin E.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin
- Maintains a strong immune function; reduces allergic response
- Supports healthy muscles, joints, and ligaments
- Supports healthy hip and joint mobility and a healthy inflammatory response
- Plant-based formula
- Non-GMO

PRODUCT FACTS

Active Ingredients per tsp:

Omega-3 fatty acids (flaxseed oil, camelina oil)	792 mg
Omega-6 fatty acids (flaxseed oil, rice bran oil, camelina oil)	606 mg
Omega-9 fatty acids (flaxseed oil, rice bran oil, camelina oil)	489 mg
Vitamin E (d-alpha-tocopherol)	0.66 IU

Inactive ingredients: None.

Directions for Use:

Daily Maintenance:

Good: ½ tsp per 40 lb body weight

Better: 1 tsp per 40 lb

Best: 1 ½ tsp per 40 lb

Amount may be doubled or tripled if faster, more dramatic benefits are desired. Larger amounts are recommended for older dogs.

High Quality Omega 3-6-9!

"Easily given in their food, I love how easy it is to ensure my dogs get the high quality omega 3s they need to shine their brightest for the ring!!"

– **Maria N.**, Michigan, 1/20/25

★ Trustpilot

Omega 3-6-9

Springtime Omega 3-6-9 softgels are a reliable source of omega fatty acids. Because omega-rich oils tend to oxidize (turn rancid) quickly, we really like the softgel protection from oxygen. If you cut an **Omega 3-6-9** softgel open and sniff, it will always have a nice, fresh aroma.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin
- Provides complete full-spectrum omega 3, 6, and 9
- Distilled wild fish oil has been purified to ensure no heavy metals, PCBs, etc. – absolutely clean and safe
- Supports healthy hip and joint mobility
- For a vegan alternative in a convenient, shelf-stable bottle, check out **Omega-E Oil**

"Miracle worker!"

"Miracle worker! My baby boy is a working line GSD and he is incredible ... highly intelligent and attentive (he's also kinda gorgeous). He can also get very ramped up like at the Vet or seeing someone new, then has a hard time calming down. **Stress Free Calmplex** is a God send. He's much more even keeled now ... he even sleeps better and is all around happier. Doesn't make him doopey either. He's his awesome self, just more chill. I won't be without it and have recommended it many times. Can't thank you enough!"

– Therese R., Illinois, 8/22/24

SUCCESS STORIES

New Hope for Rescue Dog!

"I have never bought a product based on testimonials, nor have I ever sent a testimonial, but I did both with **Stress Free Calmplex**. I got your catalog and read letters from dog owners who have used it. I had already put my abused rescue dog, Jadis, up for rehoming because we could not get past her anxiety to train her.

We had been held hostage to her unsafe and unpleasant behaviors for two years. We had tried anti-depression medication to no avail. I decided to give one last try so I ordered the **Stress Free Calmplex**. Within a couple of days, she was a different dog. People came to the house and asked what happened to her. She is now able to focus and attend, and we are finally working on some really problematic behaviors that we had given up hope on.

Looking at her, I can only imagine that she must feel relieved to not be living with the level of fear and anxiety that she had before. I don't know what is in it, but, man, is it ever working. I am sending in another order. We have told everyone we know about the product. Thank you!"

– Debra B., Massachusetts

.....

"My name is Amber, and I'm writing to let you know how much my mom loves your products. She also loves me so much that I receive **Stress Free Calmplex** tablets daily to help reduce my stress. You see my story is a special one...

I have a job each day to help foster dogs that are rescued to become friendly with other dogs and relax so they can be adopted into a new "forever home" by special families. This is a tough job for a dog like me, I can become very attached to these fosters and want them to stay at my house forever. When the fosters were adopted and left our home I became very stressed. Although my mom tells me we need to keep our home and hearts open for other rat terriers in need, this was a hard time for me. I share my mom with these foster dogs and my mom shares my **Stress Free Calmplex** with the fosters who may need them. Some foster dogs need extra help to settle in and these treats work great for them too! She even recommends your products to the new adoptive families."

Amber,
the foster dog helper!

Sincerely,

– **Amber**, Pennsylvania - Four Paws Amber's Legacy

CoQ10 for Dogs

BUY 2 GET 1 FREE!

DOGS

COCKEYSVILLE, MD 21030

Astaxanthin

BUY 2 GET 1 FREE!

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color.

Intense physical activity causes fatigue and soreness in dogs due to the creation and release of free radicals into their muscle tissue.

Astaxanthin visibly improves your dog's performance, both physically and internally, by increasing immune markers as well as decreasing DNA damage and C-reactive protein levels, while also reducing the risk of clogged arteries and providing other cardiovascular benefits.

Astaxanthin has become a supplement of choice in the grueling world of sled dog racing – imagine what it can do for your dog!

PRODUCT HIGHLIGHTS

- Helps maintain peak performance; increased endurance, energy, and strength
- Supports healthy cardiovascular function for working, sport, and active dogs
- Supports the body in recovery from exercise
- Supports and protects healthy gums
- Supports skin health during UV and sun exposure

SPRINGTIME

Garlic is nature's insect repellent. Although best known for its health protective properties, it has been used for centuries as an insect repellent. **Bug Off Garlic** is a convenient, natural, and safe way to protect your dog from fleas, ticks, and other biting insects. Best of all, it does not have the dangerous and painful effects common to spot-on chemical products for flea and tick control.

See Product Highlights on Page 43

Directions for Use:

Initial Dose: Introduce gradually over the first few days by using a fraction of your Daily Maintenance Dose. Do not be discouraged if your dog does not take to the change immediately. Once your Daily Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Daily Maintenance Dose: One tablet per 20 lb body weight. (Amount may be doubled or tripled, as needed.)

WEIGHT	AMOUNT
Under 20 lb	¼-1 tablet
21 to 40 lb	1-2 tablets
41 to 80 lb	2-4 tablets
81 to 120 lb	4-6 tablets
121+ lb	6+ tablets

Recommended: Tablets may be broken into pieces. Use year-round.

Double or triple doses are recommended for areas of high infestation as is increasing the amount in the spring and fall when insects tend to surge.

Variances in color and aroma from batch to batch are normal.

PRODUCT FACTS

Active Ingredients per tablet (2.35 g):

Garlic (<i>Allium sativum</i>)	1,000 mg
Active dry yeast	350 mg

Inactive ingredients: Desiccated beef liver, dextrose, microcrystalline cellulose, and stearic acid.

REAL BEEF LIVER

Springtime uses beef liver in generous quantities to make our dog products easy to give. The beef liver is from hormone-free cattle raised in pristine wild areas of Argentina. The beef liver is also loaded with essential vitamins and minerals dogs need.

Bug Off Garlic Granules

COMMON QUESTIONS ABOUT GARLIC

SPRINGTIME ANSWERS SOME OF THE MOST COMMONLY ASKED QUESTIONS ABOUT GARLIC.

*What kind
of bugs are
repelled by
garlic?*

Ticks

Fleas

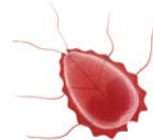

Flies

Gnats

Mosquitoes

Giardia

How garlic works as a bug repellent:

"It would seem that the powerful compounds such as allicin which garlic releases are inimical to mosquitoes. They have therefore evolved to avoid garlic. Another possibility is that the strong smell of garlic overwhelms the mosquito's sense of smell and prevents them from finding the prey. Whatever the mechanism, garlic's ability to repel a variety of pests has been proven scientifically." (Mendham, Trevor. "A Natural Mosquito Repellent: Garlic for Mosquito Control." Garlic Central. 2003-2005.)

Garlic safety:

Springtime has sold literally tons of garlic a year for over 28 years, and in that time, we have talked to plenty of customers concerning garlic's efficacy, health benefits, and safety for both dogs and horses. There is a lot of misunderstanding about garlic, and most of the confusion stems from a single study in Japan where four dogs were forced extremely large amounts of raw garlic. Garlic preparations vary in chemistry, and the air-dried garlic we use contains very little of the oxidative component that may cause problems if used in excess, so it is gentle and absolutely safe for everyday, year-round use. We feel you may give our garlic with complete confidence.

Garlic for pregnant, nursing, and newborn animals:

Many of garlic's nutritional and protective properties are passed on from the mother to the baby during gestation. The customers who have had the best experiences with nursing animals and garlic have introduced it very slowly, taking at least 10 days to ensure acceptance. Foals or puppies can be given garlic as soon as they are weaned. Many breeders report great results.

Increasing garlic with the change of seasons:

Customers report best results when they give **Bug Off Garlic** year-round, and double or triple the dosage in the spring and the fall. Most people are aware that spring can be very buggy, but it's less

well known that fall is a concern, too. Insects like ticks surge in the fall, desperately looking for a last blood meal to survive the winter. We recommend giving **Bug Off Garlic** daily, year-round, because it can be challenging to re-introduce **Bug Off Garlic** after a hiatus, particularly with picky animals.

Garlic for animals other than dogs and horses:

Our customers have used garlic successfully on miniature horses, donkeys, goats, sheep, rabbits, alpacas, llamas, deer, and cats as well as many other farm animals. You can calculate the correct dose by body weight according to the dog recommendations for smaller animals or the horse recommendations for the larger animals.

Garlic as a dewormer or heartworm preventative:

Although **Bug Off Garlic** is helpful in reducing both internal and external parasites, you may wish to consult your practitioner for these issues. For a list of holistic veterinarians in your area, you can visit the American Holistic Veterinary Medical Association online (<http://www.ahvma.org/>).

Garlic for picky or finicky animals:

For dogs and horses, starting off slowly is key. Introduce gradually over the first few days by using a fraction of the Daily Maintenance Dose. Do not be discouraged if your dog or horse does not take to the change immediately. Once the Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Garlic granules with dry food:

Customers who give grain, pellets, or kibble have developed various strategies to prevent garlic granules from falling to the bottom of the bucket or bowl. For horses, customers have often reported using a spray bottle filled with water, lightly spritzing before sprinkling the garlic on with great success. For dogs, mixing the granules with a little bit of a favorite canned goods, plain yogurt, liverwurst, or peanut butter, often helps.

SUCCESS STORIES

Not One Tick in Over a Year!

"This product [**Bug Off Garlic Chewables**] has been amazing! I don't want to jinx it but my dog hasn't had one tick on him in over a year."

– Carina P., Pennsylvania, 5/10/2025

★ Trustpilot

"They eagerly eat it!"

"I love this product [**Bug Off Garlic Chewables**]! I use it on all four of my shelties. They eagerly eat it!"

– Carol P., Minnesota, 6/5/2025

★ Trustpilot

Bug Off Garlic is the Answer!

"I have given the recommended doses daily, with their meals, to my 4 year old English mastiff and 3 year old staffie/mix since April. I have not seen any fleas or ticks on them. So pleased this product works so well. Especially since I live in a rural, wooded area. My mastiff had a frightening neurological event from a popular collar that contains neurotoxins to kill the parasites. It was then I realized how poisonous the flea and tick products can be to our four legged family members.

Bug Off [Garlic] Chewables were the answer!"

– Denise T., Pennsylvania, 7/13/2023

★ Trustpilot

BUG OFF GARLIC TIPS FOR SUCCESS

Introducing something new into your animal's routine can be tricky and **Springtime** is here to help! **Bug Off Garlic** has been a part of our natural supplement line for over 28 years and, during that time, we have cultivated a list of tips and tricks for achieving maximum results.

START GRADUALLY

Introduce Bug Off Garlic gradually over the first few days with a sprinkle or small portion. Gradually increase to the appropriate daily dose, based upon their weight. Do not be discouraged if your animal does not take to the change immediately.

PROVIDE DURING MEALS

Adding Bug Off Garlic to your animal's meal can encourage even the pickiest of eaters to indulge. When higher amounts are needed, splitting the dose between multiple meals per day can be helpful.

GIVE THE CORRECT AMOUNT

Make sure you are giving the right amount and give daily. The daily dose depends on the size of your animal. See directions on the product label. It may take two to four weeks to maximize protection.

MAXIMIZE PROTECTION

For areas of high infestation and/or during seasonal insect surges, it is safe and often recommended to double or even triple the dose of Bug Off Garlic. We advise keeping up a regular dose year-round and increasing when extra protection is needed.

If you feel the Bug Off Garlic is not having the desired effect, you may simply need to adjust the dose. For assistance, please contact our Customer Service Team at feedback@springtime.com or 800-521-3212.

“... deter biting pests.”

I use this product [**Bug Off Garlic Granules**] every spring through fall to help deter biting pests. Easy to administer right in their food, my dogs eat it with ease.

– Maria N., Michigan, 1/20/25

 Trustpilot

SUCCESS STORIES

"... safe and effective ..."

"Love this product. I have been using [**Bug Off Garlic Chewables**] on my current dog for his entire life. He is a 7 year old Great Pyrenees mix. He has never had a flea on him and only twice have I found a tick on him. I read about the side effects of the traditional pharmacy flea/tick preventatives and some of them were quite serious. This is a safe and effective alternative to that. It is very affordable. Love the product and the company. I have been with this company for over 20 years."

– Donna R., Alabama, 9/20/24

★ Trustpilot

"...flea and tick free..."

"I just wanted to drop you a note thanking you again for providing superb natural products that help keep my beloved Wally healthy. When I went on the website today to order more **Bug Off Garlic Chewables**, I was shocked to see my testimonial of Wally at the top of the page!

Wally still gets his **Bug Off Garlic Chewables** as well as **Fresh Factors, Joint Health Chewables**, and **Skin & Coat Oil**. This combination of natural supplements keeps him flea and tick free, enhances his physical health, maintains seasonal allergies, and supports the softest & shiniest coat. We both THANK YOU again for selling such excellent and safe to use products!"

– Jessie & "Wally" G., Maine

"Love this product."

"I have been using **Bug Off Garlic** for 3 years on my dogs. Never had a problem with fleas or ticks. Love this product."

– Renee C., Pennsylvania, 1/2/23

★ Trustpilot

SUCCESS STORIES

"...flea and tick free for 8+ years..."

"Great customer service and supplements! ... I have been getting **Bug Off Garlic** and **Longevity** for my dogs for many years and swear by them! My Goldendoodles have been flea and tick free for 8+ years and the **Longevity** had been an excellent choice for our 8 y/o to help him with his joints and digestion!"

– Linda D., Virginia, 2/24/23

★ Trustpilot

"... definitely deter ticks and mosquitoes."

"We have been customers of Springtime products for many years. We are huge fans of the **Bug Off Garlic Chewables** and give them faithfully on a daily basis to our beagles, Cletus and Lily. The **[Bug Off] Garlic Chewables** definitely deter ticks and mosquitoes. We have yet to have their veterinarian find a flea on them! We feel we are providing the very best to our canine companions.

Thank you for quality products that are made in the USA."

– Jill & Sam H., Pennsylvania

Bug Off Garlic Granules is all it takes!

"Flea, tick and heartworm negative for years! No other products used, just **[Bug Off]** granulated garlic."

– Robin R., Florida, 5/17/25

Diatomaceous Earth

BUY 2 GET 1 FREE!

If your dog has fleas, or is exposed to fleas, **Springtime Diatomaceous Earth (DE)** is a tactical solution to rid your pet and home of an active infestation of these pests.

PRODUCT HIGHLIGHTS

- Microscopically sharp edges of the diatoms pierce the flea's protective coating, so they dehydrate and die
- Works great on bedding, furniture, and carpet
- Chemical and poison free
- Easy to use – sprinkle directly onto pet and/or to exposed living spaces (e.g., carpet, bedding, etc.)
- Great in conjunction with **Springtime Bug Off Garlic** for ongoing year-round support

SIZE	\$/OZ	TOTAL
1 lb	\$1.09	\$17.50
1 lb - Buy 2 Get 1 FREE	73¢	\$35.00

Available as a free bonus. See page 37 for details.

PRODUCT FACTS

Ingredients: Diatomaceous earth.

Directions for Use:

Sprinkle directly on your dog's coat, taking care to avoid the eyes and nose. Using your hands, work into the fur and onto the skin underneath, focusing on areas where fleas may try to hide. It is okay to leave **Diatomaceous Earth (DE)** on your dog for up to 48 hours before bathing. If used on carpet, bedding, or furniture, **DE** can be vacuumed up after 48 hours, taking care to avoid dust.

THE ULTIMATE ONE-TWO PUNCH FOR COMBATING FLEAS:

1. Eradicate existing fleas by rubbing your dog's coat and living spaces with a generous amount of **Diatomaceous Earth** (avoid nose & eyes).
2. Prevent future flea infestations with **Diatomaceous Earth** and **Bug Off Garlic** (see pages 34-35).

SPRINGTIME

SPRINGTIME TREATS

Real meat treats that dogs love.
Nothing more, nothing less.

The typical supermarket dog treat is a processed, molded, dyed concoction of mystery ingredients. Our loyal companions deserve better and that's why we created a line of **Springtime Treats**.

Your dogs will love these delicious, all-natural treats, with the flavors and chew to satisfy their primal cravings. And you'll love giving your dogs a natural treat that is made in the USA with high quality ingredients, like duck and beef – and NEVER any fillers, preservatives, or dyes.

Springtime Treats for Healthy and Delicious Snacks!

"My dogs love the **Beef Liver & Coconut Cookies**, and I feel good about giving them..."

– **Martha M.**, South Carolina
Asgaard Kennel Bernese Mountain Dogs

"They are seriously obsessed ... hands-down their favorite treat!"

"Two pictures of my dogs enjoying your **Duck Feet**. They are seriously obsessed with them and are hands-down their favorite treat! I even believe my Westie's teeth look a bit whiter after enjoying one every other day for a few weeks now. And Desi gets squinty eyed, she's so excited when she gets one! THANK YOU!!!"

– **Lauren**, Ohio

Beef Trachea

Dogs LOVE to chew! Why not use a healthy chew that keeps their teeth and gums clean and is a natural source of chondroitin sulfate and glucosamine? Our oven-dried **Beef Trachea** is delicious and chewy enough to keep dogs happily occupied for a while.

PRODUCT HIGHLIGHTS

- Oven-dried for best flavor
- Minimal odor
- Supports healthy teeth & gums
- Supports joints & connective tissues
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

Ingredients: Beef trachea.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Bully Sticks

Springtime Bully Sticks are made from 100% U.S. beef with no added dyes, chemicals, or preservatives. Chewing is a natural behavior in dogs, but we would prefer they chew on safe, healthy treats rather than less than desirable substitutes like our new leather shoes or the dining room table legs. **Springtime’s** line of long-lasting, natural **Bully Sticks** encourages healthy chewing habits, while keeping dogs happy and occupied (making dog owners happy as well!). And **Springtime Bully Sticks** work great as a dental treat, keeping gums and teeth healthy without additives or sugary carbohydrates.

Sourced and made in the USA, our **Bully Sticks** are a safe alternative to chemically laden, potentially dangerous products like many rawhide products. Our lines of **Bully Sticks** are 100% digestible, low in fat, gluten-free, and a good source of protein.

PRODUCT HIGHLIGHTS

- Made from 100% U.S. beef
- Minimal odor
- Supports healthy teeth and gums
- Single-ingredient – nothing added
- 100% digestible
- Low in fat, gluten free, and a good source of protein

6 Bully Sticks Per Bag

BULLY STICK VARIETIES

Our five delicious varieties of **Bully Sticks** are 100% natural beef pizzle, made in the USA without any dyes, additives, preservatives, or other chemicals. Finally, a healthy, natural chew for dogs.

Our **Bully Sticks** are triple-washed naturally without any chemicals to minimize odor. **Springtime's Premium** and **Jumbo Bully Sticks** are hung to dry, allowing any natural juices to drip off, ensuring a low-odor product. **Springtime's Choice Bully Sticks** and **Braided Bully Sticks** are laid flat and oven-dried, retaining some of the natural juices, making them extra tasty for dogs.

Choice - Best Tasting

Choice Bully Sticks are oven-dried in their natural casings for extra flavor! All the trimmings left on the **Bully Stick** creates a great natural texture for helping to keep teeth clean. These **Bully Sticks** are laid flat when dried, so some of the natural juices may remain, making them extra tasty for dogs yet low-odor.

Premium - Long Lasting

Premium Bully Sticks are extremely tasty and low odor. Denser and longer lasting than our **Choice Bully Sticks**, the **Premiums** are hardy enough for the big chewers, yet still chewable for smaller mouths. **Premium Bully Sticks** are food-grade, triple-washed, and hung vertically to dry, ensuring minimal odor.

Braided - Triple the Fun

Best value are our free-range **Braided Bully Sticks**. Three premium **Bully Sticks** are twisted together for a taste-tempting treat and chew toy in one. Dogs love to puzzle and chew apart these bullies — a busy dog is a happy dog! Top of the line in taste and quality, these **Bully Sticks** are easily digestible.

Jumbo - Big Chew for Big Dogs

Low-odor, free-range **Jumbo Bully Sticks** are extra dense and thick for maximum chewing and boredom busting. Big dogs or heavy chewers love to sink their teeth into this flavorful, long-lasting treat. Top of the line in taste and quality, these **Bully Sticks** are easily digestible, with no additives or preservatives.

Curly - A Fun Twist

Curly Bully Sticks are a fun and yummy challenge for the dog who really loves to chew. Our **Curly Bully Sticks** are the same low-odor, high-quality beef pizzle you have come to expect from **Springtime**, but with a twist! These **Bully Sticks** are perfectly curled and triple-washed for maximum fun and minimal odor.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Dog Cookies – Beef Liver & Coconut, Chicken & Sweet Potato, and Duck

Springtime's line of healthy, natural **Dog Cookies** are smokehouse-dried with premium ingredients for tantalizing taste. These savory meat treats are made in the USA with food-grade ingredients. No fillers, additives, dyes, by-products, chemicals, or preservatives.

PRODUCT HIGHLIGHTS

- Smokehouse-dried for rich flavor
- Can be broken up for training treats
- Good source of protein, low in fat
- Antioxidant, nutrient-rich
- Gluten free
- Sourced and made in the USA

VARIETY (QUANTITY)	\$/EACH	TOTAL
Beef Liver & Coconut (1 lb)	76¢	\$26.00
Chicken & Sweet Potato (1 lb)	70¢	\$26.00
Duck (1 lb)	70¢	\$26.00
Available as a free bonus. See page 37 for details.		

QUANTITY PER 1 LB BAG:

Beef Liver & Coconut – Approximately 33 cookies per pound

Chicken & Sweet Potato – Approximately 37 cookies per pound

Duck – Approximately 37 cookies per pound

Beef Liver & Coconut Cookies

Ingredients Beef liver, coconut, and egg powder

These cookies are slowly dried at a low temperature in vintage smokehouses for peak nutrition and flavor. Plus, they are full of vital nutrients to help maintain an active lifestyle. Rich in antioxidants and B vitamins, liver is known to be beneficial for the nervous system, blood, and brain health. Coconut, a great source of fiber, folate, and a host of essential fatty acids, can help protect against cardiovascular and neurological diseases.

Chicken & Sweet Potato Cookies

Ingredients: Chicken meat, sweet potato, egg powder, vegetable fiber

Your dog will flip for the combination of delicious chicken meat and nutritious sweet potato in these cookies. Smokehouse-dried for rich flavor, our Chicken & Sweet Potato Cookies are a low fat source of protein that make for a tantalizing training treat or delicious reward.

Duck Cookies

Ingredients: Duck meat and egg powder

Low in fat and high in protein, duck meat is a rich source of vitamins, minerals, antioxidants, and healthy fatty acids. Duck meat is also an allergy-friendly alternative for dogs that are food sensitive to chicken or beef. These cookies are slowly dried at a low temperature in vintage smokehouses for peak nutrition and flavor. Packed with vital nutrients, they can help maintain an active, healthy lifestyle.

Note: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

SPRINGTIME

COLOSSAL COOKIES

Springtime's Colossal Cookies for Dogs are oven-baked for peak nutrition and flavor. These cookies are full of vital nutrients to help maintain an active lifestyle. Our **Colossal Cookies** are much larger than our other cookies! Made up of premium, food-grade ingredients, this is a healthy treat with no fillers, by-products, dyes, chemicals, or preservatives added.

PRODUCT HIGHLIGHTS

- Twice the diameter of our other cookies
- Oven-baked with no artificial ingredients
- Can be broken up for training treats
- Good source of protein
- Sourced and made in the USA

Beef Colossal Cookies
Ingredients 100% beef.

25 Cookies Per Bag

Ingredients Beef, oat bran, vegetable glycerin, cranberries, dried cultured skim milk, vegetable oil, mixed tocopherols (preservative), lecithin, and rosemary extract.

Note: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Sweet Potato Pieces

Dogs love the crispy, crunchy texture and delicious taste of **Springtime Sweet Potato Pieces**. Slowly oven-dried, sweet potatoes are rich in dietary fiber and healthy antioxidants, including carotenoids and vitamin A.

Sweet potato has been valued for its health benefits for thousands of years. Sweet potato (which is different than the white potato) helps maintain health and longevity with its abundant nutrients, such as vitamins A and C, vitamin B 6, magnesium, iron, potassium, calcium, and copper.

PRODUCT HIGHLIGHTS

- Healthy, crunchy sweet potato
- Slow-dried for best flavor
- High in dietary fiber & antioxidants
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

Ingredients: Sweet potato.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Dried Feet – Chicken and Duck

While **Chicken Feet** and **Duck Feet** might not look pretty to pet parents, these easily digestible, satisfyingly crunchy treats are an absolute favorite for dogs! Premium, food-grade **Chicken Feet** and **Duck Feet** contain no additives, dyes, or preservatives and are allergy-friendly for dogs with beef sensitivities.

A natural source of chondroitin sulfate, glucosamine and protein, **Chicken Feet** and **Duck Feet** give nutritional support along with dental hygiene.

PRODUCT HIGHLIGHTS

- Allergy-friendly for beef sensitivities
- Steroid-free & antibiotic-free
- Single ingredient – nothing added
- Supports joints & connective tissues
- Promotes healthy teeth & gums
- 100% digestible
- Sourced & made in the USA

Spirulina Tablets for People

BUY 2 GET 1 FREE!

The most widely used word to describe spirulina is "superfood." Here's why: Spirulina contains a higher percentage of protein than meat, the highest whole food source of vitamin B12, more iron than beef liver, 25 times more beta carotene than carrots, more chlorophyll than alfalfa or wheat grass, and three times more omega 6 than evening primrose oil.

PRODUCT HIGHLIGHTS

- Supports healthy endocrine, immune, and nervous system function[†]
- Helps maintain healthy liver & kidney function[†]
- Great source of protein, helps satiate the appetite

SIZE	\$/TABLET	TOTAL
360	10¢	\$35.25

THE SECRET TO OUR SUCCESS...

Bee pollen is the foundation on which **Springtime** was built. Our founder, Dennis Hampt, had been using bee pollen for his own health for years when he discovered the positive impact that it had on his dog (see page 73). This gave him the idea to sell bee pollen for animals, specifically to horse trainers, whose careers depended on the optimal health of their animals. The trainers were skeptical at first, but the performance on the track was all the proof they needed that bee pollen was a difference maker! The company that became **Springtime** was born.

Bee pollen would end up being a key ingredient in other **Springtime** products for horses, and then dogs, and then for people. Today **Springtime** has a wide array of natural products, but **Springtime Bee Pollen** is still enormously popular, and bee pollen remains a key ingredient in some of our most popular and effective products.

CoQ10 for People

BUY 2 GET 1 FREE!

Coenzyme Q10 (**CoQ10**) is also called ubiquinone because it is so widespread (ubiquitous) in the body. Although it is naturally produced by the body and concentrated in the heart, **CoQ10** can be supplemented to support healthy heart function.

PRODUCT HIGHLIGHTS

- Supports normal heart function[†]
- Helps maintain healthy energy levels[†]
- Perfectly complementary to **Tonic Blend**

Suggested Daily Use:

Take 1-2 softgels daily with a meal.

SIZE	\$/SOFTGEL	TOTAL
90	46¢	\$41.00
90 - Buy 2 Get 1 FREE	30¢	\$82.00

Available as a free bonus. See page 37 for details.

SUPPLEMENT FACTS (PER 2 SOFTGELS)

Coenzyme Q10 (Ubiquinone) 200 mg

Other ingredients: Beeswax, rice bran oil, gelatin, vegetable glycerin, soy lecithin, annatto color, titanium dioxide color, and purified water.

[†]This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

CoQ10: For Heart Health

The following summaries were published about CoQ10 by the Mayo Clinic, one of the best research hospitals in the world.

On CoQ10 Deficiency...

"CoQ10 is made naturally in the body, but deficiency may occur due to disease, low dietary intake, or high CoQ10 use by the body. Symptoms of deficiency include heart failure, high blood pressure, and chest pain. Depending on the cause of deficiency, supplementing with CoQ10 or increasing dietary intake may be effective."

On CoQ10 for Heart Failure...

"Research suggests that CoQ10 may be effective for chronic heart failure. Low blood levels of CoQ10 have been associated with this condition. CoQ10 has been used in combination with other herbs and supplements for chronic heart failure."

On CoQ10 for High Blood Pressure...

"There is good research to support the use of CoQ10 in the treatment of high blood pressure. However, more studies evaluating a higher dose for a longer treatment period are needed."

Astaxanthin for People

BUY 2 GET 1 FREE!

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color. Oxidative stress causes damage to the cells, proteins, and DNA in your body. **Astaxanthin** is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.

PRODUCT HIGHLIGHTS

- Helps maintain peak performance; increased endurance, energy, and strength[†]
- Supports the body in recovery from exercise[†]
- Supports cardiovascular function and a healthy circulatory system[†]
- Supports skin structure, enhancing moisture levels and elasticity[†]
- Supports skin health during UV and sun exposure[†]
- Helps support a healthy immune response[†]
- Supports eye health[†]

SIZE	\$/SOFTGEL	TOTAL
90	40¢	\$36.00
90 - Buy 2 Get 1 FREE	27¢	\$72.00

SUPPLEMENT FACTS (PER SOFTGEL)

Natural astaxanthin 4 mg
(*Haematococcus pluvialis* microalgae)

Other ingredients: High oleic safflower oil, gelatin, water, glycerin, medium chain triglycerides, and d-alpha-Tocopherol.

Suggested Daily Use:

Take 1-3 softgels daily with a fat-containing meal.

[†]This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Ultra Omega 3-6-9 for People

BUY 2 GET 1 FREE!

Perfect for maintaining skin health and normal histamine levels. Helpful support for people with seasonal allergies. **Ultra Omega 3-6-9** also helps to maintain healthy immune and joint function and supports a healthy inflammatory response.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin[†]
- Provides complete full-spectrum omega 3-6-9[†]
- Distilled wild fish oil has been purified to ensure no heavy metals, PCBs, etc.—absolutely clean and safe[†]
- Supports healthy hip and joint mobility[†]

SIZE	\$/SOFTGEL	TOTAL
90	34¢	\$31.00
180	30¢	\$54.00
90 - Buy 2 Get 1 FREE	23¢	\$62.00
180 - Buy 2 Get 1 FREE	20¢	\$108.00

Available as a free bonus. See page 37 for details.

Suggested Daily Use:

Take one softgel daily with a meal.

SUPPLEMENT FACTS (PER SOFTGEL)

Omega-3 fatty acids (Distilled wild fish oil, flaxseed oil) Providing 180 mg of alpha-linolenic acid (ALA), 115 mg of eicosapentaenoic acid (EPA), and 80 mg of docosahexaenoic acid (DHA)	375 mg
Omega-6 fatty acids (Borage seed oil, flaxseed oil) Providing 164 mg of linoleic acid (LA) and 72 mg of gamma linolenic acid (GLA)	236 mg
Omega-9 fatty acids (Borage seed oil, flaxseed oil) Providing 136 mg of oleic acid (OA)	136 mg
Vitamin E (as mixed tocopherols)	10 IU

Inactive ingredients: Gelatin, glycerin, and purified water.

[†]This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

INGREDIENT GLOSSARY

A selection of some of the time-tested ingredients used in Springtime Supplements.

ALOE Aloe supports digestive comfort, tissue hydration, skin health, and immune balance through its soothing bioactive compounds.	
AMYLASE Supports carbohydrate digestion and efficient energy utilization while promoting digestive comfort.	
ASCORBIC ACID (VITAMIN C) The "master vitamin" supports a healthy immune system, a normal inflammatory response, and tissue, tendon, and ligament health. Vitamin C is also an antioxidant that plays one of the most important roles in the body. It is needed to maintain the health of skin, cartilage, teeth, bone, and blood vessels. It is used to protect the body's cells from damage.	
ASTAXANTHIN A reddish pigment that belongs to a group called carotenoids. Found naturally in certain algae, it is what gives shrimp, salmon, and other seafood their pink/red color. Astaxanthin is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.	
BEEF LIVER A rich source of B vitamins, iron and trace minerals which naturally support the body's quest for health and energy.	
BEE POLLEN The male germ cell of plants, the most nutritious part. Contains powerful whole-food antioxidants, vitamins, minerals and hormones potentiated by massive amounts of live enzyme activity. Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are absolutely essential for every biochemical function of the body.	
BIOTIN Biotin is a B vitamin that plays a key role in the production of skin, nails, and hair. The B complex vitamins, like biotin, help the body convert carbohydrates, fats, and protein into energy. Biotin is used by the body to maintain the health of skin, the digestive tract, and the nervous system.	
BOSWELLIA Boswellia (also known as frankincense) is made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for comfort support by helping the body maintain a healthy inflammatory response.	
BROWN SEAWEED (FUCOIDAN) Brown seaweed provides fucoidan and trace minerals that support immune response, antioxidant protection, and gut health.	
CALCIUM Calcium is essential for bone and tooth strength, muscle contraction, nerve signaling, and cardiovascular function. Adequate calcium supports skeletal integrity throughout all life stages.	
CHINESE DODDER Chinese dodder supports musculoskeletal balance, joint strength, antioxidant protection, and long-term vitality.	
CHONDROITIN SULFATE A naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement for maintaining healthy cartilage, joint lubrication, skin/coat, and for a normal inflammatory response.	
CITRUS BIOFLAVONOID COMPLEX A biologically active antioxidant that helps optimize vitamin C absorption and utilization. Also known to support a healthy inflammatory response and cellular membrane health.	

800-521-3212

SPRINGTIME.COM

INGREDIENT GLOSSARY CONTINUED

DRYNARIA

A biologically active antioxidant that helps optimize vitamin C absorption and utilization. Also known to support a healthy inflammatory response and cellular membrane health.

EUCOMMIA FLOWER EXTRACT

Eucommia flower extract supports joint health, connective tissue strength, circulation, and physical resilience, especially in aging or active animals.

GAMMA ORYZANOL

Gamma oryzanol is a naturally occurring compound derived from rice bran oil. It is associated with supporting muscle development, energy metabolism, and antioxidant protection, particularly in performance or working animals.

GARLIC (AIR-DRIED GRANULES)

Nutrient-rich and aromatic, air-dried granules are most well known as a non-toxic bug repellent, a natural detoxicant, and as a dietary sulfur. Garlic is nature's insect repellent. It is a powerful and safe way to protect your horse or dog from fleas, ticks, and other biting insects. Best of all, garlic doesn't have the dangerous and painful effects common to sprays and spot-on chemicals for flea and tick control.

GLUCOSAMINE

Glucosamine is an amino sugar produced by the body for use in tendons, ligaments, cartilage, and in the fluid around the body's joints. Glucosamine supplements help support joint health in people, dogs, and horses by giving the body the additional glucosamine it requires to maintain healthy joint tissue and fluid.

HYALURONIC ACID

Hyaluronic acid is a naturally occurring gel-like substance belonging to the group of glycosaminoglycans (GAGs). It is present in different places in the body, but mostly in the connective tissue space and synovial fluid. Since the purpose of joint fluid is to lubricate, HA helps promote this function. Additionally, HA helps with the shock-absorbing capacity of the joint and distribution of the mechanical forces impacting the joints.

HYDROLYZED COLLAGEN

Hydrolyzed collagen provides easily absorbed amino acids that support connective tissue health in animals. It helps maintain joints, tendons, ligaments, skin, and hooves, and may support mobility and tissue repair. Its high digestibility makes it suitable for aging, active, or working animals.

KELP

Kelp is a leafy form of brown-algae seaweed that absorbs a vast variety of nutrients and minerals present in the water around it. Kelp is a commonly eaten food in many places, especially in Japan where it has been used as a food and for health benefits for thousands of years. Kelp has gained popularity in recent decades as a supplement, because it is rich in vitamins (A, B1, B2, C, D and E) as well as minerals (zinc, iodine, magnesium, iron, potassium, copper and calcium). In addition to its nutritional value, kelp is known to support healthy skin/coat and for maintaining healthy weight and blood pressure.

L-GLUTAMINE

L-Glutamine supports intestinal health and immune function by nourishing cells lining the gastrointestinal tract. It is especially beneficial during stress, illness, or recovery and helps promote digestive stability and nutrient absorption.

L-GLYCINE

An amino acid that supports protein synthesis, connective tissue formation, and metabolic balance. It is a key component of collagen and also supports nervous system and liver function.

L-THEANINE

Supports calm behavior and stress resilience by promoting balanced neurotransmitter activity without sedation.

LIPASE

Lipase supports fat digestion, energy production, and absorption of fat-soluble nutrients.

MAGNESIUM

Magnesium supports muscle relaxation, nerve function, energy production, and metabolic balance. It is especially important for active or stress-prone animals.

MAGNESIUM BISGLYCINATE

Magnesium bisglycinate is a highly bioavailable form of magnesium that supports calm behavior, muscle relaxation, and energy metabolism while being gentle on digestion.

MANGANESE Manganese is a trace mineral that is essential for the formation of healthy cartilage and bone. It plays a vital role in metabolizing fats and carbohydrates, as well as synthesizing chondroitin sulfate. Manganese is part of the antioxidant enzyme superoxide dismutase (SOD), which helps protect against free radicals.	
MARSHMALLOW ROOT Marshmallow root contains mucilage compounds that help soothe and protect mucous membranes. It supports digestive comfort, gut lining integrity, and urinary tract health. Its gentle properties make it suitable for animals with sensitive digestion or during recovery.	
MOS Mannooligosaccharides (MOS) are functional fibers that support gut health by binding undesirable bacteria and supporting immune function.	
MSM Methylsulfonylmethane is a naturally occurring sulfur compound found in plants, animals, and humans. MSM is approximately one-third sulfur and delivers an absorbable form of sulfur that the body needs for the production of cartilage. MSM is believed to support a normal inflammatory response and is widely used as a supplement for joint health.	
OMEGA/ESSENTIAL OILS Some of the systems these nutrients help support are the nervous, immune, and cardiovascular systems. Omegas also help the body maintain healthy skin and joints.	
PANAX GINSENG Ginseng (panax ginseng) is a member of the ivy family that is renowned for the health properties of its roots. Ginseng is the most widely used of the botanicals referred to as adaptogens, which help the body combat mental and physical stress. Ginseng was used by the ancient Chinese and by Native Americans, and it has been used for thousands of years for a variety of health benefits. In fact, "panax" is Greek for "all healing."	
POTASSIUM An essential electrolyte supporting muscle function, nerve signaling, fluid balance, and cardiovascular health.	
PROTEASE Protease is a digestive enzyme that supports protein digestion, amino acid absorption, and metabolic efficiency.	
SACCHAROMYCES BOULARDII Saccharomyces boulardii is a probiotic yeast that supports digestive balance, gut barrier integrity, and stool consistency, especially during stress or dietary change.	
SEA BUCKTHORN Sea buckthorn is rich in fatty acids and antioxidants that support skin, coat, and digestive health in animals. It helps maintain mucosal integrity and supports immune resilience while promoting coat condition and overall vitality.	
SILICA Silica supports connective tissue strength, bone integrity, joint health, and hoof and coat condition.	
SLIPPERY ELM Slippery elm is a traditional botanical known for its soothing properties on the digestive system. When mixed with liquid, it forms a mucilaginous gel that can coat and protect the gastrointestinal lining. This supports digestive comfort, normal bowel function, and gut resilience, especially in sensitive animals.	
SPIRULINA Spirulina is a microscopic blue-green vegetable algae that supports healthy endocrine, nervous, and immune systems. Spirulina is a source of highly absorbable protein, mixed carotenoids, and other phytonutrients, B vitamins, GLA, and essential amino acids. Spirulina has emerged as an especially healthy whole food for humans and animals alike.	
TAURINE Taurine is essential for heart, vision, nervous system, and metabolic health, particularly in cats and other animals with limited taurine synthesis.	
VITAMIN E Vitamin E is a powerful antioxidant that supports immune health, muscle function, skin integrity, and reproductive health while protecting cells from oxidative stress.	
YEAST – (ACTIVE LIVE YEAST) Active Live Yeast culture (<i>saccharomyces cerevisiae</i>) is a complete protein and super-supplement containing 18 amino acids, B complex vitamins, dietary fiber, as well as many other nutritional components and minerals. It contains additional functional and beneficial components such as beta-1, 3 glucan, trehalose, mannan and glutathione. Studies have shown that these components have potential health benefits, such as supporting healthy immune responses and cholesterol.	

SPRINGTIME'S TERMS AND CONDITIONS

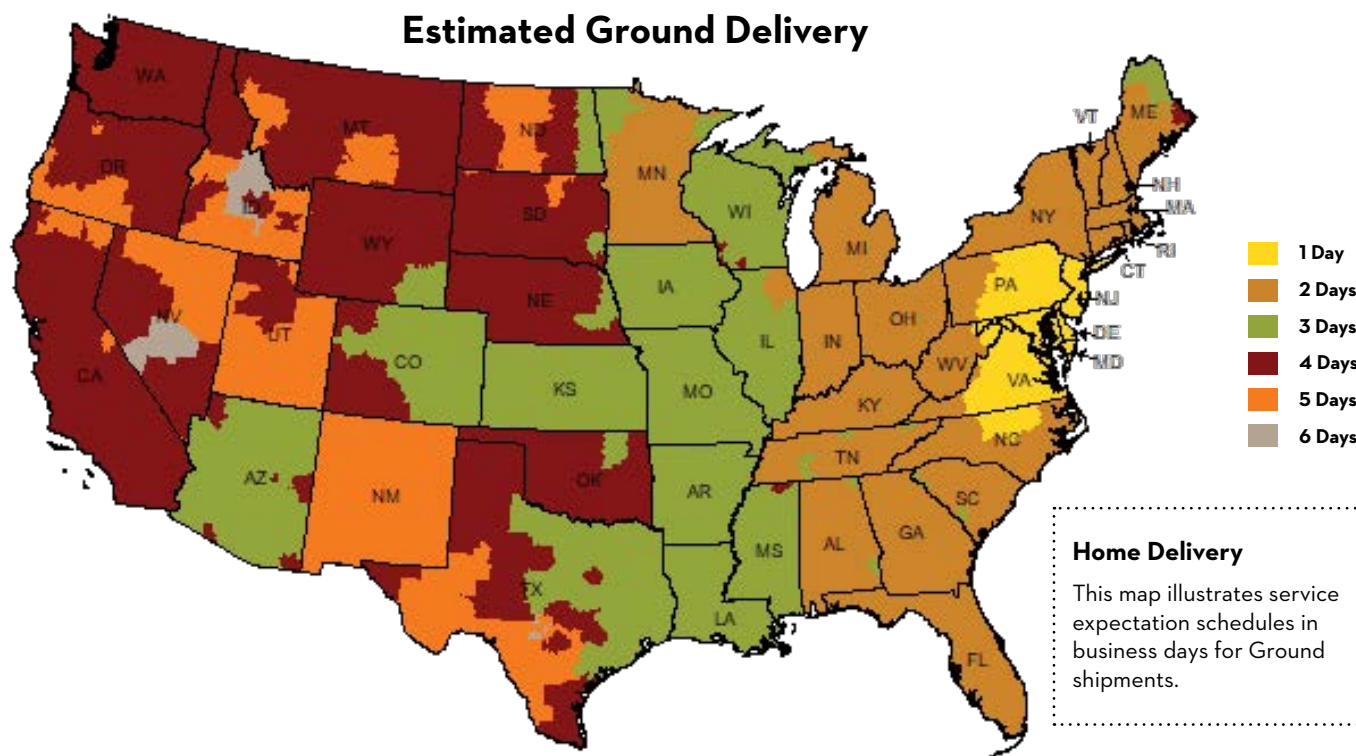

60-DAY HAPPINESS GUARANTEE – We want you to feel confident trying our products. If you are not completely satisfied, you may return any product within 60 days of purchase for a refund or store credit – no questions asked. Refunds are prorated based on the amount of product used. Free bonus items have no cash value. Shipping fees are non-refundable. Refunds are issued to the original form of payment or as store credit.

EASY 24-HOUR ORDERING – Visit **SPRINGTIME.COM** for secure online ordering, current specials, and email sign-up, or call us at 800-521-3212. Our knowledgeable customer service team is available Monday through Friday, 8:30 a.m. to 5:00 p.m. Eastern Time.

SIMPLE, AFFORDABLE SHIPPING (CONTIGUOUS U.S.) – Orders shipped to a street address within the contiguous United States are subject to the following flat-rate shipping and handling charges. Shipping to multiple addresses will incur a separate charge per address..

Total OrderShipping/Handling Charges
Under \$75.00 \$8.00
\$75.00 & Up **FREE**

FAST, RELIABLE SHIPPING – Approximately 99% of orders received by 3:00 p.m. ET are shipped the same business day. Orders placed on weekends or holidays will be shipped the next business day. Expedited shipping options are available for an additional charge – please call 800-521-3212 for rates. Ground shipping is not available to P.O. Boxes.

ALASKA, HAWAII, CANADA & INTERNATIONAL SHIPPING – Orders shipped to Alaska, Hawaii, and Canada are sent via USPS at discounted rates based on package weight. Shipping to other countries is also available – please call our office for rates. Duties, taxes, and customs fees may apply and are the responsibility of the customer.

BUDDHA

1969-1981

THE DOG THAT STARTED IT ALL...

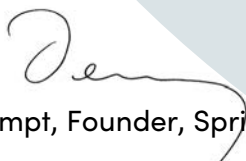

Dear Reader,

The dog pictured above "who looks like a bear" is an Akita named "Buddha." He was my dog many years ago. Buddha suffered a broken leg when he was a puppy. By the time he was seven years old, he had developed crippling arthritis in that same leg. Rather than put him down, as recommended by two different vets, I experimented with health foods to try to help him. Feeding him certain natural foods proved to be a miraculous remedy. Not only did he recover, but he regained the power and strength that he had in his prime. He lived five more pain-free years before dying at the age of twelve.

Over the years, we have added other ingredients to the formula I had given Buddha and it has evolved into our ultimate, all-around chewable supplement for dogs – **Fresh Factors**®. A few years ago, we developed other chewable products that target specific needs for dogs as well.

More recently, we developed an exciting, powerful product called **Longevity**, which is a very highly evolved, powdered version of **Fresh Factors**.

I believe there are millions of dogs who can live longer, happier, and more productive lives for themselves and their loved ones. In honor of Buddha, who is the reason for **Springtime Supplements**, our mission is to help as many dogs as possible do just that. They give us everything they have. Feeding them the best we possibly can is a way for us to repay them.

Sincerely, 
Dennis Hampt, Founder, Springtime, Inc.
