When It Comes to the Health of Your Pet and You, Springtime Has You Covered.

If you are new to **Springtime** and can't decide what products to try first, here are some of the best sellers our customers come back to again and again.

FOR DOGS

Fresh Factors®

Springtime's best-selling chewable for dogs of all ages. Supports healthy joints, skin, digestion, and energy levels. *See pg. 52.*

Longevity – Powerful ingredients to maintain healthy joints, skin, digestion, and a powerful immune system. *See pg. 66.*

Bug Off Garlic – A safe, natural flea and tick deterrent available in chewables and air-dried granules. *See pgs. 38-39.*

Dog Treats – Springtime's line of dog treats like **Bully Sticks** and **Dog Cookies** are made with natural ingredients they love and you'll feel good giving to them. *See pgs. 72-79.*

FOR HORSES

Joint Health Comfort +

With chondroitin sulfate, MSM, and glucosamine HCl for healthy joint support, and boswellia serrata for comfort & mobility. *See pg. 6.*

Hoof & Coat Formula

Naturally occurring electrolytes, trace minerals, B vitamins and biotin for mineral replenishment, sound healthy hooves, and more. *See pg. 28.*

Spirulina Wafers – A raw blue-green microalgae to help maintain the body's immune, circulatory, and detoxifying systems. *See pg. 25.*

Bug Off Garlic – 100% air-dried garlic granules provide a safe, 24-hour shield against flies, ticks, mosquitoes, gnats, and other biting insects. *See pg. 34.*

FOR PEOPLE

Joint Health Capsules

Contains chondroitin sulfate, glucosamine, MSM, and vitamin C to support healthy joints.* *See pg. 82.*

Tonic Blend

– Add natural antioxidants & adaptogens into your diet to help the body's processes function normally during physical and emotional stress.* *See pg. 84.*

Astaxanthin

– One of nature's strongest antioxidants providing powerful defense from free radicals. Helps the body maintain peak performance.* *See pg. 90.*

Vitamin C Complex

A combination of vitamin C, antioxidants, and bioflavonoids that promote a normal functioning immune system and more.* *See pg. 85.*

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

THE SPRINGTIME DIFFERENCE

For over 46 years, **Springtime Supplements** has been making **natural** products designed to help our customers and their pets live happier, healthier lives.

Our extensive line of quality, natural, and vigorously tested products offers something for all – whether you're looking for a nutritional boost or seeking help with faster recovery.

Family Owned & Operated Since 1979

Whether it's customer service, manufacturing, shipping, or the owner himself, we're all under one roof, here in Maryland, where the magic happens. When you're talking with us, you're talking to people who love animals and know animals. We're here to listen to your challenges and goals to provide knowledge to help you craft an innovative solution to your need.

Vigorous Testing & Gold Star Standards

We hold ourselves accountable to the strict FDA, NASC, and AAFCO standards to ensure we're formulating the safest, best products possible. Our human-grade raw materials are tested for quality, identity, purity, strength, etc, according to USP standards. Each raw material must pass every test, or we will not use it. Period. We're not in the business of being 'good enough.'

Bundle Deals & Freebies

Investing in your health and your animals' health is serious business. We offer many specials and incentives to help bring down daily costs and extend the supply of supplements to get your money's worth. We have many specials; Buy 2 Get 1 Free (3 Pack), Buy 2 Get 2 Free (4 Pack), and we offer free items and free shipping on qualified orders! We want to do our part to make health and wellness an affordable option.

Same Day Shipping

99% of orders received by 3pm ET are shipped that day. Whether you've waited too long to reorder or are trying something for the first time, know that when your order is placed, we get right to work fulfilling it and sending it on its way. Because who likes to wait around?

60-Day Return Window

We get it. Sometimes things just don't work out. Rest assured that every purchase you make comes with our word that you're not going to be stuck with it should something not work out. If you're not satisfied with any product, simply return it within 60 days for a refund or credit towards something else. No questions asked. (Open containers subject to a prorated refund). Shipping fees are non-refundable.

Become a Springtime Savvy Shopper!

We've been here long enough to know many different and unique ways to help you save money on your order! Do you order different Springtime products for yourself, your dog, and your horse? Sometimes all at different times? We have conversations with customers on a daily basis about how to best take advantage of our specials to save on shipping, extend your supplement supply, and reduce your daily cost in the long run. If you need help figuring out the best way to save money on your order, please give us a call. We are here to help you!

BOSWELLIA SERRATA

Treasured since biblical times for its potent health properties.

Boswellia (also known as frankincense) is an herbal supplement with potent health properties made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for its health properties, including support of a healthy inflammatory response.

Studies have shown that boswellic acid supports a normal inflammatory response by blocking the enzyme 5-lipoxygenase which then inhibits the synthesis of leukotrienes. It has also been shown to support healthy cartilage.

In Switzerland in 2004, a veterinary clinical trial was conducted comparing joint health before and after ingestion of extract of boswellia serrata.

The extract was given once a day with food at 400mg/10kg of body weight for six weeks. After just two weeks, researchers noted that 71% of the dogs showed improvement. By week six, significant positive changes were shown in mobility and comfort. A few dogs had brief, reversible episodes of loose stools.

"By week six, significant positive changes were shown in mobility and comfort."

(From Dietary support with Boswellia resin in canine inflammatory joint and spinal disease. Reichling J, Schmokel H, Fitz J, Bucher S, Saller R. Web. 5 December 2010, PMID: 14994484.)

SPRINGTIME

Joint Health Comfort +

Joint Health Comfort + is a powdered formula made with boswellia serrata, chondroitin sulfate, MSM, and glucosamine HCl. These high-quality ingredients are known to help joints stay lubricated, support the body's normal inflammatory response, and ease discomfort – an excellent option for the aging horse or horse that needs help maintaining comfort and mobility. For comprehensive joint support, not intended to target specific discomfort concerns, please see **Joint Health OA +** on p. 8.

PRODUCT HIGHLIGHTS

- Keeps healthy horses active
- Supports cartilage health
- Promotes comfort & mobility
- Support for joint stiffness after athletic activity & competition
- Supports a normal inflammatory response
- Natural way to maintain healthy joint lubrication

SIZE	$\frac{3}{4}$ SCOOPS*	\$/ $\frac{3}{4}$ SCOOP	TOTAL
2.5 lb	80	\$1.43	\$114.00
5 lb	160	\$1.19	\$189.75
10 lb	320	\$1.09	\$348.00
20 lb	640	99¢	\$631.50

*Approximate number of scoops. Density may vary.
Available as a free bonus item. See page 49.

PRODUCT FACTS

Active Ingredients per $\frac{3}{4}$ scoop ($\frac{1}{2}$ oz):

Methylsulfonylmethane (MSM)	3,500 mg
Glucosamine HCl (shellfish source)	2,500 mg
Boswellia serrata	2,275 mg
Chondroitin sulfate (bovine source)	1,800 mg

Inactive ingredients: Carrot powder.

Directions for Use:

Initial Dose: Two scoops daily for the first week.

Daily Maintenance:

Good: $\frac{3}{4}$ scoop per 1,000 lb body weight

Better: One level scoop per 1,000 lb

Best: One heaping scoop per 1,000 lb

Best dose is recommended for older horses or horses under strenuous activity.

Dose preferably divided and administered in the morning and evening. Dose may be doubled or tripled after strenuous activity, or if faster, more dramatic benefits are desired.

SUCCESS STORIES

Retired Show Jumper Sound at 27!

Dear Springtime:

Wow, what super service! I just got an email confirming shipping and my shipping number, and I only put the order in a couple of hours ago. My horse thrives on your products. His registered name is Snappy Count. We call him Snappy, but at times we refer to him as "Count Snappy" when his Thoroughbred blood leads him to act like royalty that I am to wait on hand and foot! Actually he's a very fine old gentleman. He would not be sound at 27 and still enjoying trail rides if it were not for **[Joint Health Comfort +]**. He's a retired show jumper that has severe joint issues, but you would never know it. We have had a very tough summer with poor hooves so I am hoping your **Hoof & Coat Formula** will give him stronger hooves. Deciding whose product to try first was a 'no brainer.'

– Michelle E., North Carolina

Just what the Doc ordered!

Dear Springtime:

This is Doc. He is a 10 year old Mustang. When I purchased/rescued him from an agent, he was abandoned at a boarding facility. He was a dark grey and dingy color. His right shoulder clicked when he walked and he moved in chunky motions. Last spring he had a bout of colic as well.

As a longtime customer of **Springtime** products for dogs and people, I decided to give it a try for this boy. I started him on **Spirulina Wafers** and **Joint Health Wafers**, adding more to the number during the cold months.

We are at almost 9 months of using both products and we are sold. (You can see his fluid movements and thankfully we now can't hear his cracking joints.) You can see his coloring - in the middle of winter! His teeth look awesome and the farrier can't say enough about the change in his hooves. Thanks for providing healthy options for horses.

– Carol C., Utah

SPRINGTIME

Joint Health OA +

Joint Health OA +, a powdered formula made with Optimal Amounts of joint specific ingredients, is designed to support all the structures in a joint; cartilage, synovial fluid, ligaments, and tendons. Chondroitin sulfate, glucosamine, and MSM support healthy hips and joints, while hyaluronic acid helps maintain joint lubrication and manganese promotes bone health. Combined, these ingredients will provide your horses' joints with complete support to keep them active.

PRODUCT HIGHLIGHTS

- Keeps healthy horses active
- Supports cartilage surface health
- Promotes comfort & mobility
- Support for joint stiffness after athletic activity & competition
- Natural way to maintain healthy joint lubrication
- Helps keep tendons & ligaments healthy & flexible

SUCCESS STORIES

Renewed Movement

Started the [Joint Health OA +] in October 2022. This product made significant improvements in my Tennessee Walker, who has had bouts of laminitis/founder. I call this formula a 'laminae builder'. His movement is now free and flexible.

Thank you, **Springtime**.
He's a happy guy now.

– Karen E., Pennsylvania, 1/26/2023

★ Trustpilot

33 year old Quarter Horse!

“... vet cannot believe how active he still is ...”

Zorro, our 33 year old Quarter Horse, has been on your Joint Health supplement [now **Joint Health OA +**] for almost 15 years. We started him on your product because we were told he could possibly have some lameness issues. I feel with the help of your supplement, Zorro has stayed in great shape and still able to go for trail rides. His vet cannot believe how active he still is and that he can keep up with his 16 year old barn mate.

– Jeff S., Oregon

CHONDROITIN SULFATE

The body naturally produces a molecule called chondroitin for the formation and maintenance of joints. The good news is that it can be supplemented to support joint health and comfort.

Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and it is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement to maintain healthy cartilage, joint lubrication, and healthy skin, nails, and hair.

Not All Chondroitin Is Created Equal

The chondroitin used in dietary supplements is extracted from the cartilage and connective tissues of animals. The most common animal sources are cow, pig, chicken, and shark. Chondroitin varies depending on the source, and scientists have separated it into three distinct classes: A, B, and C. This is important because chondroitin A has greater health benefits than B or C, and some animal sources have more chondroitin A than others. For instance, chondroitin sulfate sourced from beef trachea cartilage (used by **Springtime**) has among the highest concentrations of chondroitin A. Conversely, some products on the market are labeled as 100% chondroitin but contain little to no chondroitin A, rendering them woefully ineffective.

Chondroitin sulfate is one of six related substances called glycosaminoglycans (GAGs), which are also referred to as mucopolysaccharides. Adequate amounts of chondroitin are vital for normal joint function and maintenance, as well as many other self-healing mechanisms.

"He made an amazing recovery on J-Flex ...!"

Dear Springtime,

I just want to take the time to thank you for your amazing products. I have attached a photo of Quacker, my 14 year old half Tennessee Walking Horse. Quacker foundered five years ago. Several options did not help much and all the vet offered was to put him down because at one point he was experiencing discomfort to the point he could not get up. I was ready to make that painful decision, but then I read some of the good success stories in your catalog about **J-Flex Concentrate**.

So I decided it couldn't hurt to at least give it a try. He made an amazing recovery on **J-Flex Concentrate**! Now he is back to being the good, sound riding horse he used to be.

He's full of life and spirit, and loves to run.

Thank you so much **Springtime** for giving me my horse back!!

Sincerely,
Emilie S., Wisconsin

SPRINGTIME

Glucosamine

99% pure **Glucosamine HCl**. A naturally sweet, single-ingredient option for healthy joint maintenance.

PRODUCT HIGHLIGHTS

- Natural building block of cartilage, tendons, & ligaments (connective tissue)
- Supports the body's normal inflammatory response
- Helps maintain normal joint lubrication & flexibility
- Sweet tasting – easy-to-administer for picky animals
- May be used along with **J-Flex** for faster results

SIZE	SCOOPS*	\$/SCOOP	TOTAL

PRODUCT FACTS

Active Ingredients per scoop (8 g):

Glucosamine HCl (shellfish source) **8,100 mg**

Inactive ingredients: None.

Directions for Use:

Initial Dose: Two level scoops per 1,000 lb body weight twice daily for the first week.

Daily Maintenance: Administer 1-2 scoops up to twice a day per 1,000 lb body weight. Faster, more dramatic benefits will occur with additional doses.

"... these supplements work and quickly!"

Dear Springtime:

I am writing to let you know how truly effective and wonderful your product is! My 12 year old Appaloosa mare, Midnight's Magic [Mattie], has been on/off with joint stiffness for over a year despite numerous vet consults and alternative approaches. It has been so disheartening to me. Finally, I decided to start Mattie on **Glucosamine** with the blessing of a new vet. INCREDIBLE – within a few short weeks, Mattie began to noticeably show normal flexibility and was much more "relaxed".

My 22 year old gelding, Juniper, had been injected by a vet for a degenerative joints in his hind right. After seeing the success of Mattie, I decided to add **J-Flex Concentrate** and **Glucosamine** to his treatment. I can't believe it. For the first time he freely and "actively" took the right lead in a canter with maintained normal mobility! I really believe these supplements work and quickly!

– Candace S., Pennsylvania

MSM (methylsulfonylmethane) is a naturally occurring sulfur compound found in plants, animals, and humans. MSM is recommended for maintaining healthy joint function and supporting a normal inflammatory response associated with daily exercise and training.

PRODUCT HIGHLIGHTS

- An absorbable form of sulfur that supports the healthy production of cartilage
- Supports a healthy inflammatory response, such as after exercise or training
- Sulfur is also vital to the production and function of glutathione, an important intracellular antioxidant and detoxifier in the body
- Cost-effective, single-ingredient supplement

Inactive ingredients: Alcohol (15% as a preservative), fructose, purified water, and vegetable gum.

Directions for Use:

Pre-event: Administer one tube 6–8 hours before event.

Optional: Give one tube the evening before and one tube 6–8 hours before event.

“...it really works!”

Dear Springtime,

My daughter uses **Performance Paste** for her horse. I ordered some and had it on hand. It's much easier for her to use because it does not have to be given daily. I bought it thinking it would be something natural that we could use before horse shows to calm her down a bit. My daughter did not think it worked until she stopped using it. When she used it, she was placing in every event, but as soon as she stopped, her horse was more nervous and did not do as well. She was no longer winning. This went on for a while and she was becoming very frustrated. As soon as she began using **Performance Paste** again, her horse began winning. You made a firm believer out of her! She did so well, she was one of two people in her age group selected to go to State show based upon her riding. Her equestrian team now gets to go on to represent our district in the Michigan Interscholastic Horseman-ship Association! What a fine product you've made. We both can say it really works!

Sincerely,
Nancy S., Michigan

THE ROOT OF ALL GOODNESS

Panax ginseng has been used for thousands of years to support energy, rejuvenation, and sense of calm.

Ginseng (*Panax ginseng*) is a member of the ivy family that is renowned for the powerful health properties of its roots. Ginseng is the most widely used of the botanicals referred to as adaptogens, which help the body combat mental and physical stress, including during athletic activity. Ginseng was used by the ancient Chinese and by Native Americans, and it has been used for thousands of years for a variety of health benefits. In fact, “panax” is Greek for “all healing.”*

Ginseng is probably most well known for its ability to support a healthy sense of well being and energy. In traditional Chinese medicine, panax ginseng has been used for centuries to maintain a sense of calm. In the West, ginseng is becoming increasingly popular and is being studied for a variety of benefits, including supporting a sense of calm, concentration, a healthy immune system, and normal blood sugar, among others.*

GINSENG IS PROBABLY MOST WELL KNOWN FOR ITS ABILITY TO SUPPORT A HEALTHY SENSE OF WELL BEING & ENERGY.

Panax ginseng is native to cooler climates in Asia and North America. A mature ginseng plant will have five leaves, red berries, and long stem leading to a fleshy, gnarled root system. Cultivated ginseng varies in quality, based on many factors, and wild ginseng, which is very rare, is often regarded as superior. Its value and popularity have led to over-harvesting, making it more difficult and more expensive to obtain quality ginseng.

Daily Calm[®]

BUY 2 GET 1 FREE!

Daily Calm is a natural, non-sedating, daily supplement that helps reduce nervousness, stress, and spookiness, while enhancing focus confidence, performance, and health. Not only helpful for nervous horses, but it can also be useful for any high-performance lifestyle. Top grade panax ginseng extract is the primary active ingredient. Ginseng is the best known and most widely used of botanicals referred to as adaptogens, harmony remedies, or longevity tonics to combat stress, improve health and well-being, and upgrade athletic performance. The other ingredients in **Daily Calm** help prevent adrenal exhaustion and assist free radical scavenging.

PRODUCT HIGHLIGHTS

- Improves ability to manage stress as a daily supplement or to target specific events
- Does not sedate
- Great for travel/trailering
- Helps maintain focus & attention during lessons, events & shows
- Reserves energy for periods of peak requirement
- Stallwalkers, weavers, easily "spooked," and high-strung types

PRODUCT FACTS

Active Ingredients per scoop (5,500 mg):

Panax ginseng	660 mg
Ascorbic acid (vitamin C)	330 mg
Citrus bioflavonoid complex	264 mg
Hesperidin	187 mg
Rutin (vitamin P)	6 mg

Inactive ingredients: Carrot powder and fructose.

Directions for Use:

Daily Maintenance: Administer between 1-2 scoops per 1,000 lb body weight. Dose may vary from horse to horse.

Pre-Event: Give three scoops the evening before and the morning of the event.

SUCCESS STORIES

“... what a difference in his ability to relax, concentrate, and perform ...”

Dear Springtime,

Our four year old American White stallion (pure white with black eyes) is starting a course of 'Hollywood' tricks and is doing well, but he's young, still growing, and stressed due to it all. Your **C-Complex** and **Daily Calm**® has helped him. His trainer, Diane Dodd (pictured), comments what a difference in his ability to relax, concentrate, and perform since he's back from after a stay at home. I told her it is the powders she's putting in his food. She was surprised and very pleased with Arctic Foxx's improvement. Foxx is very rare – he is not albino but is pure white – not a speck of color.

– Wanda B., California

Rescued Horses – “... quiet and content ...”

Go Boy

Dear Springtime,

We wanted to share our experience with using **Daily Calm**® on one of the rescued horses. A group of Paso Finos came to Horse Protection Association of Florida after they were seized in a cruelty case involving a number of horses. Not all of the horses survived.

Monet, an underweight two year old filly was very sweet and liked people when handled gently and enjoyed being groomed. However, she was panic stricken to be confined in a pen, stall, or pasture. All of the horses here at the HPAF farm are turned out in large pastures all day and night except when they come in for feeding. The pen Monet went in was 40 x 20 and she had her pasture mates on both sides of her for company while in for feeding. As soon as she finished eating, even with a hay bag full of rich orchard and alfalfa hay in front of her, she would frantically run the length of the pen back and forth and would only stop when we physically stopped her. When

turned out in a 25 acre pasture, she would run the fence line by the gate, back and forth, incessantly. We started feeding her **Springtime Daily Calm** as her only supplement in December. Through January she improved and did not run the fence as often. By the end of January she was a new horse. She is quiet and content in her pen for feeding and now when turned out in the pasture she goes right off to play and graze with the other horses. **Daily Calm** has worked wonders for this lovely filly. With her improved state of mind she has now begun ground training and should make a lovely horse for some lucky adopter.

Also, we have been using **Joint Health Comfort +** for years on a number of the horses and recommend it to everyone. Go Boy, a Tennessee Walker who came to us with severe mechanical issues six years ago, maintains beautifully with **Comfort +** and has been able to maintain normal mobility for three years.

Thank you for your wonderful products. We are very grateful to have them for the horses that we take in that are victims of starvation and neglect. Springtime products help us to improve their quality of life and get them on the road to a new life.

Most Sincerely,
Morgan S. (Horse Protection Association of Florida)

C-Complex

C-Complex is a powerful vitamin-C formula enhanced with bioflavonoids and nutrient rich bee pollen. A full spectrum of accessory nutrients excellent for immune support, promoting tissue, tendon and ligament health, and supporting a normal inflammatory response post workout.

PRODUCT HIGHLIGHTS

- With bee pollen
- Fully supported vitamin C
- Safe source of pro-vitamin A
- Contains free-radical fighting antioxidants
- Supports connective tissue, tendon, and ligament health
- Supports a healthy immune system
- Maintains a normal inflammatory response after strenuous activity

SIZE	SCOOPS*	\$/SCOOP	TOTAL

10 lb	213	77¢	\$163.50

*Approximate number of scoops. Density may vary.
Available as a free bonus item. See page 49.

PRODUCT FACTS	
Active Ingredients per scoop (¾ oz):	
Ascorbic acid (vitamin C)	5,306 mg
Bee pollen	5,306 mg
Hesperidin	1,804 mg
Citrus bioflavonoid complex	1,274 mg
Rutin (vitamin P)	35 mg
Inactive ingredients: Carrot powder.	

Directions for Use: Administer one scoop per 1,000 lb body weight daily. For best results, start with just a sprinkle for the first few days and gradually increase to suggested amount. Amount may be doubled if desired.

“... my mare is doing wonderful!”

Dear Springtime:

My Kiger mare was very badly damaged at a breeder's. After three surgeries, trying many different options. I spoke to a friend who uses your products. I called your office and was recommended to use **C-Complex** to help support her immune system. Two years later, my mare is doing wonderful! All our horses are on **C-Complex**! If

I ever have a problem, I'll call my vet then I'll call you.

Sincerely,
Laura R., Oregon

BEE POLLEN

**SUPPORTS ENERGY,
IMMUNE HEALTH,
DIGESTION, & MORE.**

Bees produce more than honey! They collect granules of flower pollen as a food source for the adult bees in the hive. Bees would not have their famous reputation for staying busy without flower pollen. Bee-collected pollen is densely nutritious, and it has been treasured for its health properties for thousands of years for both people and animals. The benefits of bee pollen include:

- It helps support healthy muscle condition, essential for strength & endurance
- Live enzymes support healthy digestion
- It supports a healthy immune system
- Contains antioxidants, vitamins, and minerals

The key benefit of bee pollen is that it is loaded with antioxidants, vitamins, minerals, protein, and live enzymes. Because of its dense nutrition, bee pollen uses include; supporting energy needs, muscle strength, healthy digestion, and immune support. Bee pollen is taken as a supplement in its naturally occurring granule form, ground into a fine powder, or as part of an ingested supplement, such as a pill or chewable tablet.

Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are essential for every biochemical function of the body. Enzymes are perhaps the most important of the health-giving plant factors. They are destroyed by high

temperatures (130 degrees) – cooking! Enzymes are the essential triggers for the metabolic machinery of every living thing, from daffodils to buffalo. The enzymes in raw foods are necessary because they help support the body's enzyme systems. Enzymes are the life principle of every living cell.

Bee Pollen for Seasonal Support

Bee pollen supports the immune system. When the immune system is functioning properly, it is less likely to overreact to non-threatening stimuli, like seasonal allergens, with annoying sneezing, coughing, and itching. Typically it is not necessary to consume local bee pollen to achieve the health benefits. This is a common misconception. The immune system benefits of bee pollen operate with a biological mechanism in which the origin of the bee pollen makes no difference whatsoever.

Bee Pollen

Bee-collected flower pollen was the first supplement marketed by **Springtime** in 1979 and it's still one of our most effective. We sell top grade, whole granules. Each batch, hand picked for freshness and flavor, is a natural source of live enzymes, antioxidants, vitamins, and minerals to support breeding, digestion, muscle, hooves, and skin. We are very serious about this product. After 44 years, it is still the single most powerful rejuvenator we have experienced.

PRODUCT HIGHLIGHTS

- Can help maintain a healthy digestive system even during a lack of grazing
- Pollen supports healthy muscle condition
- Helps keep blood count healthy
- Pollen grains are a natural food of stallions, mares & foals – totally safe & beneficial for performance, breeding, and high stress situations
- Bee pollen is one of the rare ingredients that contains all 22 nutrients for optimal health
- Naturally contains vitamins, minerals, protein, amino acids, carotenoids, bioflavonoids, phytosterols, fatty acids, and live enzymes

Bee pollen 70,875 mg

Inactive ingredients: None.

Directions for Use:

Daily Maintenance: Administer one scoop per 1,000 lb body weight. Amount may be doubled for performance, breeding or if desired.

Recommended: For best results, start with just a sprinkle for the first few days and gradually increase to suggested amount.

Health & Weight Maintenance

Dear Springtime:

My old horse pictured, is 34 in this photo. I recently ran out of **Springtime Bee Pollen** for him and thought, oh well, he's on pasture part of the day. But in just a couple of months, he lost weight! We reordered our **Springtime** products, and it definitely made a difference in him initially, and taking him off of it was not to his benefit. He'll get this product for the rest of his life.

– Vicki B.,
Wisconsin

SPRINGTIME

Breather Powder

The active ingredient in **Breather Powder** is tienchi, a somewhat rare botanical that has been used for hundreds of years for a number of health benefits, but is best known for supporting the circulatory and respiratory systems. **Springtime's Breather Powder** helps maintain healthy blood circulation and oxygenation, capillary wall strength, and respiratory function..

PRODUCT HIGHLIGHTS

- A horse that breathes better, performs better
- Supports normal function and integrity of the lungs
- Herbal adaptogen for maintaining healthy blood circulation
- Maintains healthy oxygenation and endurance
- Supports normal capillary wall strength

PRODUCT FACTS

Active Ingredients per scoop (4,050 mg):

Tienchi ginseng (*Panax notoginseng*) 2,381 mg

Inactive ingredients: Sucrose.

Directions for Use:

Daily Maintenance: Give 1-2 scoops per 1,000 lb body weight.
Dose may vary from horse to horse.

Pre-Event: Administer two heaping scoops the evening before and the morning of the event.

SUCCESS STORIES

"Breather Powder has been a lifesaver ..."

Breather Powder has been a lifesaver for my horse with heaves. He is happy and doing very well.

– Denise H., Michigan, 1/6/23

★ Trustpilot

"You would never know she had the heaves."

Dear Springtime:

Due to the drought, heat and dusty conditions in our part of the country, my favorite horse, a 19-year-old Tennessee Walking Horse mare, Oprah, developed a severe case of heaves. We tried every remedy we could find – to no avail.

I received one of your catalogs and decided to try the **Breather Powder**, along with the other remedies for about a month. She stopped heaving and coughing. So we stopped giving her anything but the **Breather Powder**. You would never know she had the heaves. Thank you so much for your products.

– Darlene B., Ohio

SPIRULINA

This global super-algae supports a healthy immune system for a variety of benefits.

Spirulina is a microscopic blue-green vegetable algae that is considered to be one of the most nutrient-dense ingredients available. Spirulina is a source of highly absorbable protein, mixed carotenoids, and other phytonutrients, B vitamins, iron, chlorophyll, GLA, and essential amino acids, as well as other trace minerals and nutrients.

Spirulina has emerged as an especially potent and healthy ingredient for humans and animals alike. For centuries, many cultures have used Spirulina as a significant food source and an essential nutrient for health and vitality.

Safe and non-toxic, this natural algae supports the endocrine and immune systems. Spirulina is perhaps best known for its ability to help support a normal allergy response. High in antioxidants, spirulina is thought to help protect the body from free radicals that are found in the environment. Spirulina has also been shown to help promote gastrointestinal health.

The B vitamins in spirulina support the nervous system. In addition, spirulina supports the detoxifying role of the kidneys and liver.

Springtime uses only the highest-grade spirulina, chosen for purity and freshness. Modern culture systems are strictly controlled, assuring 100% purity of the strain for a safe and reliable supply. And, as with all **Springtime** products, we choose to manufacture to USP standards, which include testing for heavy metals, pesticides and contaminants.

Spirulina Wafers

BUY 2 GET 1 FREE!

Spirulina, a raw blue-green microalgae, is a deceptively simple ingredient containing complex and powerful live enzymes and a wide spectrum of other factors. By assisting multiple metabolic functions, it helps maintain the body's immune, circulatory, and detoxifying systems, as well as a brilliant natural bloom. Live enzymes provide superior results compared to lab-made products. Ideal for performance, breeding, or high-stress situations.

PRODUCT HIGHLIGHTS

- Effective for seasonal support
- Supports healthy liver & kidney in their detoxifying & restorative functions
- Helps maintain proper immune system function
- Helps support the body's natural healing process

PRODUCT FACTS

Active Ingredients per wafer (2.45 g):

Spirulina (*Arthrospira platensis*) 1,750 mg

Inactive ingredients: Dextrose and stearic acid.

Directions for Use:

Daily Maintenance: Administer at least one wafer per 100 lb body weight (example: ten wafers per 1,000 lb horse).

Recommended: For best results, start with a few wafers for the first few days and gradually increase to suggested amount. Amount may be doubled or tripled for performance, breeding, or high stress situations.

"... [hives] cleared up, completely ..."

... this is Bo, my 13 yr appendix QH. He started getting hives this spring, I still don't know if it was bug bites, allergies, if he ate something, he never had this happen before. Week after week of it, antihistamines didn't work, dexamethasone worked, but that's a temporary fix, didn't want to keep him on steroids. I then remembered a friend using blue green algae for her mare's hives, so I decided to try the **Springtime Spirulina [Wafers]**. Within just a couple days of starting him on the **Spirulina**, he cleared up, completely, and it didn't happen again. I kept him on it for a couple months, until the bugs went away and any toxic plants were gone. Thank you for another awesome product. I have been using your products for my horses, dogs, cats, and myself since the mid '90's, and I continue to be amazed.

– Karin W.

No More Coughing

Dear Springtime:

Over the past two or three years, my mare has developed a cough and wheeze. Last year, it was so bad that I was worried she would have to face a very early retirement. If she had to strain herself at all, she would start coughing and have to stop and rest.

I tried nearly everything I could think of, then **DMG 5,600** was recommended to me. Since she has been on it, she has made a complete turn-around. She has NEVER looked or felt better, and I have my old horse back! Thank you!

– Valecia Joy B., Iowa

Sweet Potato Treats

Horses love the delicious taste of **Springtime's Sweet Potato Treats**. Slowly oven-dried for peak nutrition, these natural slices of 100% sweet potato are rich in dietary fiber and healthy antioxidants, including carotenoids and vitamin A. In South America, sweet potato has been valued for its health benefits for thousands of years. Sweet potato (which is different than the white potato) helps maintain health and longevity with its abundant nutrients, such as vitamins A and C, vitamin B6, magnesium, iron, potassium, calcium, and copper.

PRODUCT HIGHLIGHTS

- Healthy sweet potato treat
- Slow-dried for best flavor
- High in dietary fiber & antioxidants
- Single ingredient - nothing added
- 100% digestible
- Sourced & made in the USA

QUANTITY	\$/OZ	TOTAL

Gamma

Gamma promotes muscle integrity and definition and helps support performance, endurance, and healthy skin. Gamma oryzanol is a rather rare, naturally occurring constituent of rice bran. After being extracted and purified, **Springtime** blends it into rice bran oil, which contains vitamins, antioxidants, and other nutrients. While gamma oryzanol helps build muscle, rice bran oil helps sustain healthy skin.

PRODUCT HIGHLIGHTS

- Helps maintain proper body composition
- Promotes muscle integrity and definition
- Supports performance and endurance
- Supports normal muscle recovery
- Helps establish & maintain healthy weight
- Maintains healthy skin
- Great for showing, prepping for sale, or training horses

"The difference in her haircoat and muscling is amazing."

Dear Springtime,

I've enclosed photos of SC Splash's Valley Girl, alias Magic, taken when I bought her in January of 2009, and today, June 30, 2009. She has been on **Springtime Gamma**. The difference in her haircoat and muscling is amazing. I've used **Gamma** before on a mare I showed in halter, with the same great results. Thanks for a great product!

SPRINGTIME

Omega-E Oil

Omega-E Oil is a complete and balanced source of Omega 3-6-9 fatty acids with the added benefits of vitamin E. This plant-based formula, a blend of flaxseed oil, camelina oil, rice bran oil, and vitamin E, is designed to support optimal physical response.

PRODUCT HIGHLIGHTS

- Helps to maintain physical performance
- Supports healthy muscles, joints, and ligaments
- Supports a healthy inflammatory response
- Supports and maintains a strong immune function; reduces allergic response
- Plant-based formula – as herbivores, horses are not biologically adapted to consuming fish-based oils
- Non-GMO

CAMELINA OIL

Camelina oil comes from the oilseed *Camelina sativa*. Camelina oil is known for its high level of omega-3 fatty acids in a plant-based form. Because of this, Camelina oil may help provide structure to cell membranes and help with exercise stamina. Camelina oil's high omega-3 levels can also help strengthen the immune system and support healthy joints.

VITAMIN E

Vitamin E is a group of eight fat soluble compounds known for its antioxidant effects to protect cells against free radicals. Vitamin E also supports a healthy immune system, as well as normal nerve and muscle function.

Omega-6 fatty acids (flaxseed oil, rice bran oil, camelina oil)	5,953 mg
Omega-9 fatty acids (flaxseed oil, rice bran oil, camelina oil)	7,371 mg
Vitamin E (d-alpha-tocopherol)	8 IU

Inactive ingredients: None.

Feeding Directions: Feed 1 - 3 oz per 1,000 lb body weight (1 - 3 pumps).

SUCCESS STORIES

"...we thought it was colic, but really the flies and bugs were just bothering him."

Dear Springtime,

My pony, Tux, uses **Bug Off Garlic**, and loves it! It has made such a difference in our lives.

Tux used to kick at his belly all the time. Last year, it got so bad that we thought it was colic, but really the flies and bugs were just bothering him. Now that he has been having his **Bug Off Garlic** he hasn't kicked at his belly once ever since!

Thanks so much.
– Nicole J., North Carolina

"Bug Off Garlic will save them a ton on fly spray!"

Radar and Friday, fly-free & shiny!

Dear Springtime,

We just moved to Florida from Colorado, and the horses started to drop weight right away. Everyone I talked to said to get ready for itchy, miserable horses and that they would end up with rain rot, hoof rot, etc. However, I did my research and in addition to the new feed plan, added in the **Bug Off Garlic**. And within two weeks I could really notice a difference in the flies on the horses. I have since been telling everyone that has horses to use this. **Bug Off Garlic** will save them a ton on fly spray! It is safe and has other health benefits as well. Here

is a great shot of two of my boys, Radar and Friday, out on the pasture. I had not groomed them in a while and yet they are super slick. One of my neighbors even asked me if I was using hair polish on them. Nope, I told him it was the **Bug Off Garlic** and good forage. Also, I had another man just stop by the house (we are new here) and tell me how good my horses looked and asked if I had any for sale!

I keep my family and pets as natural as possible and this product has far surpassed my expectations – thanks again!

– Alicia M., Florida

SPRINGTIME

Bug Off Garlic Granules

BUY 2 GET 1 FREE!

Veterinarians versed in natural alternatives use garlic in their private practices throughout the world. Although best known for its health protective properties, garlic has been used for centuries as an insect repellent. **Springtime's** 100% air-dried garlic granules takes that benefit to a new level and is far safer than many chemical products. You may use this product with total confidence as a safe, 24-hour shield against flies, ticks, mosquitoes, gnats, and other biting insects. Excellent for horse-fly control!

PRODUCT HIGHLIGHTS

- Provides a 24-hour shield against flies, ticks, mosquitoes, gnats, "no see ums," and more
- No "spray on" hassles
- Safe, effective alternative to chemical products
- Promotes friendly bacteria in the digestive tract (prebiotic)
- Great source of dietary sulfur, including MSM
- Supports a healthy immune system

*Approximate number of scoops. Density may vary.
Available as a free bonus item. See page 49.

Directions for Use:

Initial Dose: Introduce gradually over the first few days by using a fraction of your Daily Maintenance Dose. Do not be discouraged if your horse does not take to the change immediately. Once your Daily Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Daily Maintenance Dose:

Good: One scoop per 1,000 lb body weight

Better: Two scoops per 1,000 lb

Best: Three scoops per 1,000 lb

Best dose is recommended for areas of high infestation.

Recommended: Use year-round. In the spring and fall when insects surge and/or when your horse is exposed to areas of high infestation, we encourage you to double or triple your Daily Maintenance Dose. Variances in color and aroma from batch to batch are normal.

PRODUCT FACTS

Active Ingredients per scoop (¾ oz):

Garlic (*Allium sativum*) 21,263 mg

Inactive ingredients: None.

SUCCESS STORIES

"Thank heavens for Bug Off Garlic!"

Dear Springtime:

Fighting off all kinds of bugs to protect our horses is a challenge in South Texas, the bug capital of the U.S.A. My 25-year-old horse, Lakota, developed a severe allergic reaction to bug bites. And, worse, he also started reacting to fly sprays and spot-on repellents. Thank heavens for **Bug Off Garlic**! Lakota's allergic reaction has been reduced by about 90%.

My horses have no problem taking **Bug Off Garlic**. Every day, I soak their senior feed along with beet pulp pellets and the **Bug Off Garlic Granules** in water for 20 minutes and then feed it. They clean their buckets. Thanks so much, **Springtime**!

– Jessee P., Texas

.....

"... not a tick on either of my horses."

Dear Springtime:

I have used **Bug Off Garlic** for my horses for a couple years. I really think it makes a difference, but this year more so! My horse friends were all complaining about horrible, strange ticks on their horses. Those ticks were leaving big welts and scabs. I hurried out to check on mine, but not a tick on either of my horses. I told all of them that I was still using the **Bug Off [Garlic]**, because our weather was staying warm. Thanks to your product I had no tick problems!!!

– Lynne T., West Virginia

COMMON QUESTIONS ABOUT GARLIC

SPRINGTIME ANSWERS SOME OF THE MOST COMMONLY ASKED QUESTIONS ABOUT GARLIC.

What kind of bugs are repelled by garlic?

Ticks

Fleas

Flies

Gnats

Mosquitoes

Giardia

How garlic works as a bug repellent:

"It would seem that the powerful compounds such as allicin which garlic releases are inimical to mosquitoes. They have therefore evolved to avoid garlic. Another possibility is that the strong smell of garlic overwhelms the mosquito's sense of smell and prevents them from finding the prey. Whatever the mechanism, garlic's ability to repel a variety of pests has been proven scientifically." (Mendham, Trevor. "A Natural Mosquito Repellent: Garlic for Mosquito Control." Garlic Central. 2003-2005.)

Garlic safety:

Springtime has sold literally tons of garlic a year for over 20 years, and in that time, we have talked to plenty of customers concerning garlic's efficacy, health benefits, and safety for both dogs and horses. There is a lot of misunderstanding about garlic, and most of the confusion stems from a single study in Japan where four dogs were forced extremely large amounts of raw garlic. Garlic preparations vary in chemistry, and the air-dried garlic we use contains very little of the oxidative component that may cause problems if used in excess, so it is gentle and absolutely safe for everyday, year-round use. We feel you may give our garlic with complete confidence.

Garlic for pregnant, nursing, and newborn animals:

Many of garlic's nutritional and protective properties are passed on from the mother to the baby during gestation. The customers who have had the best experiences with nursing animals and garlic have introduced it very slowly, taking at least 10 days to ensure acceptance. Foals or puppies can be given garlic as soon as they are weaned. Many breeders report great results.

Increasing garlic with the change of seasons:

Customers report best results when they give Bug Off Garlic year-round, and double or triple the dosage in the spring and the fall. Most people are aware that spring can be very buggy, but it's less

well known that fall is a concern, too. Insects like ticks surge in the fall, desperately looking for a last blood meal to survive the winter. We recommend giving Bug Off Garlic daily, year-round, because it can be challenging to re-introduce Bug Off Garlic after a hiatus, particularly with picky animals.

Garlic for animals other than dogs and horses:

Our customers have used garlic successfully on miniature horses, donkeys, goats, sheep, rabbits, alpacas, llamas, deer, and cats as well as many other farm animals. You can calculate the correct dose by body weight according to the dog recommendations for smaller animals or the horse recommendations for the larger animals.

Garlic as a dewormer or heartworm preventative:

Although Bug Off Garlic is helpful in reducing both internal and external parasites, you may wish to consult your practitioner for these issues. For a list of holistic veterinarians in your area, you can visit the American Holistic Veterinary Medical Association online (<http://www.ahvma.org/>).

Garlic for picky or finicky animals:

For dogs and horses, starting off slowly is key. Introduce gradually over the first few days by using a fraction of the Daily Maintenance Dose. Do not be discouraged if your dog or horse does not take to the change immediately. Once the Maintenance Dose is achieved, it might take 2-4 weeks to maximize protection.

Garlic granules with dry food:

Customers who give grain, pellets, or kibble have developed various strategies to prevent garlic granules from falling to the bottom of the bucket or bowl. For horses, customers have often reported using a spray bottle filled with water, lightly spritzing before sprinkling the garlic on with great success. For dogs, mixing the granules with a little bit of a favorite canned goods, plain yogurt, liverwurst, or peanut butter, often helps.

SUCCESS STORIES

"... made his coughing stop almost completely."

I just wanted to say "Thank You" for making such great products. I have a draft cross "Tuff" that developed a cough in the late fall/winter time. I started him on the **Bee Pollen** twice a day and am so happy that he only now coughs occasionally and has no discharge either. I also have incorporated the **Breather Powder** in his grain ration once a day and believe that these 2 products have made his coughing stop almost completely. Love all your products. Keep up the great work.

– Debbie N., Vermont

"... Springtime is always my go to place!!"

I've been getting **Springtime** products for over 30 years, for horses, dogs and people! Anytime I need something **Springtime** is always my go to place!!

DOGS

P.O. BOX 1227 COCKEYSVILLE, MD 21030

SPRINGTIME

Garlic is nature's insect repellent. Although best known for its health protective properties, it has been used for centuries as an insect repellent. **Bug Off Garlic** is a convenient, natural, and safe way to protect your dog from fleas, ticks, and other biting insects. Best of all, it does not have the dangerous and painful effects common to spot-on chemical products for flea and tick control.

SUCCESS STORIES

“... [her vet] immediately recommended your Bug Off Garlic.”

Dear Springtime,

When I brought Autumn home I knew I wasn't going to use the 'traditional' flea and tick preventatives. However, I moved from the city to the country and knew I needed something. At Autumn's first puppy exam I shared my concerns with her vet about flea and tick preventatives, she immediately recommended your **Bug Off Garlic**.

That evening I went to the website, read testimonials and did a bit of research on your product.

A couple days later, I ordered the **Bug Off Garlic Chewables**. They arrived within a few days. Autumn has been using **Bug Off Garlic** since December and at maintenance until Spring arrived. She is now taking double dose daily. We have 78 acres with ponds and since doubling her dosage during high season the number of ticks on her is minimal. A couple weeks ago, she was hanging out in tall grass for well over an hour and only had one tick crawling on her.

Thank you for selling safe and effective products.

– Roxann and Autumn, Michigan

“...flea and tick free...”

Dear Springtime,

I just wanted to drop you a note thanking you again for providing superb natural products that help keep my beloved Wally healthy. When I went on the website today to order more **Bug Off Garlic Chewables**, I was shocked to see my testimonial of Wally at the top of the page!

Wally still gets his **Bug Off Garlic Chewables** as well as **Fresh Factors**, **Joint Health Chewables**, and **Skin & Coat Oil**. This combination of natural supplements keeps him flea and tick free, enhances his physical health, maintains seasonal allergies, and supports the softest & shiniest coat. We both THANK YOU again for selling such excellent and safe to use products!

– Jessie & “Wally” G., Maine

“Love this product.”

I have been using **Bug Off Garlic** for 3 years on my dogs. Never had a problem with fleas or ticks. Love this product.

– Renee C., Pennsylvania, 1/2/23

Diatomaceous Earth

BUY 2 GET 1 FREE!

If your dog has fleas, or is exposed to fleas, **Springtime Diatomaceous Earth (DE)** is a tactical solution to rid your pet and home of an active infestation of these pests.

PRODUCT HIGHLIGHTS

- Microscopically sharp edges of the diatoms pierce the flea's protective coating, so they dehydrate and die
- Works great on bedding, furniture, and carpet
- Chemical and poison free
- Easy to use – sprinkle directly onto pet and/or to exposed living spaces (e.g., carpet, bedding, etc.)
- Great in conjunction with **Springtime Bug Off Garlic** for ongoing year-round support

SIZE	\$/OZ	TOTAL
1 lb	\$1.09	\$17.50
Buy two 1 lb jars get ONE FREE	73¢	\$35.00

Available as a free bonus item. See page 49.

PRODUCT FACTS

Ingredients: Diatomaceous earth.

Directions for Use:

Sprinkle directly on your dog's coat, taking care to avoid the eyes and nose. Using your hands, work into the fur and onto the skin underneath, focusing on areas where fleas may try to hide. It is okay to leave **Diatomaceous Earth (DE)** on your dog for up to 48 hours before bathing. If used on carpet, bedding, or furniture, **DE** can be vacuumed up after 48 hours, taking care to avoid dust.

THE ULTIMATE ONE-TWO PUNCH FOR COMBATING FLEAS:

1. Eradicate existing fleas by rubbing your dog's coat and living spaces with a generous amount of **Diatomaceous Earth** (avoid nose & eyes).
2. Prevent future flea infestations with **Diatomaceous Earth** and **Bug Off Garlic** (see pages 38 - 39).

Omega-E Oil

Springtime Omega-E Oil, a blend of flaxseed oil, camelina oil, rice bran oil, and vitamin E, helps maintain skin health, normal histamine levels, and a healthy immune system. It can be helpful for pets with seasonal allergies and supports muscles, ligaments, joints, and a healthy inflammatory response.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin
- Maintains a strong immune function; reduces allergic response
- Supports healthy muscles, joints, and ligaments
- Supports a healthy hip and joint mobility and a healthy inflammatory response
- Plant-based formula
- Non-GMO

Omega 3-6-9

Springtime Omega 3-6-9 softgels are a reliable source of omega fatty acids. Because omega-rich oils tend to oxidize (turn rancid) quickly, we really like the softgel protection from oxygen. If you cut an **Omega 3-6-9** softgel open and sniff, it will always have a nice, fresh aroma.

PRODUCT HIGHLIGHTS

- Helps the body maintain normal, healthy skin
- Provides complete full-spectrum omega 3, 6, and 9
- Distilled wild fish oil has been purified to ensure no heavy metals, PCBs, etc. – absolutely clean and safe
- Supports healthy hip and joint mobility
- For a vegan alternative in a convenient, shelf-stable bottle, check out **Skin & Coat Oil**

“... her coat is so incredibly soft.”

I would like to share how amazing I think the [Skin & Coat Super Seven Oil Formula] is for my dog. My dog Saige has it every day on her breakfast kibble and her coat is so incredibly soft. She is complimented all the time when we are out, especially at the vet's office. I love this product so much!

– Jill D., Connecticut

SUCCESS STORIES

Asa looks better than ever!

Dear Springtime,

I absolutely love the **Skin & Coat Oil** for dogs and can't say enough good things about it! My dog, Asa, has struggled with dry, flaky skin for over 5 years... So, we booked an appointment with a vet dermatologist. At the same time, a friend recommended your **Skin & Coat Oil** - and he has never been better! So much improvement after only one bottle! While he still has flaky skin - it's so minimal now and the constant scratching has stopped to barely at all! His coat is so much thicker and luxurious!

– Becky Y.

"... shiny and gleams off the sun ..."

Dear Springtime,

Wanted to drop a note to express how pleased I am with the **Skin & Coat Oil**. Barney & Molly are "happy" with the results also. They rarely scratch anymore and their coats are shiny and gleams off the sun, can't beat that.

– Beverly, Mississippi

"... his coat is beautifully lush ..."

Dear Springtime:

This is Konqueror. He has recently achieved his AKC Scent Work Master Title. He is already an Elite Nosework and Master Champion in Nosework for UKC. His humble beginnings started with competing the CWAGS Nosework curriculum.

Konqueror loves **Springtime!** Konqueror uses **Bug Off Garlic** year round as a natural repellent and it also boosts his immunity. Konqueror's skin and coat is maintained with year round use of **Springtime's Skin & Coat Oil**. His coat is beautifully lush, soft, and so shiny! Thank you for your quality products! We are long time fans!

– Heddi S.

Freckles Is No Longer a Handful!

Dear Springtime,

Our dog, Elmo Freckles, a black Lab/Great Dane mix, is 28 months old and has been quite a handful for a 91 year old woman to take care of. That is, until I found your product **Stress Free Calmplex**. Freckles also takes **Bug Off Garlic Chewables** for the flies we have here, and **Fresh Factors** to maintain his allergies.

Freckles likes to sit on the scooter and watch the kids go to school.

Thanks, **Springtime**, for your wonderful products.

– Roberta J., Nevada

SUCCESS STORIES

New Hope for Rescue Dog!

Dear Springtime,

I have never bought a product based on testimonials, nor have I ever sent a testimonial, but I did both with **Stress Free Calmplex**. I got your catalog and read letters from dog owners who have used it. I had already put my abused rescue dog, Jadis, up for rehoming because we could not get past her anxiety to train her.

We had been held hostage to her unsafe and unpleasant behaviors for two years. We had tried anti-depression medication to no avail. I decided to give one last try so I ordered the **Stress Free Calmplex**. Within a couple of days, she was a different dog. People came to the house and asked what happened to her. She is now able to focus and attend, and we are finally working on some really problematic behaviors that we had given up hope on.

Looking at her, I can only imagine that she must feel relieved to not be living with the level of fear and anxiety that she had before. I don't know what is in it, but, man, is it ever working. I am sending in another order. We have told everyone we know about the product. Thank you!

– Debra B., Massachusetts

Dear Springtime,

My name is Amber, and I'm writing to let you know how much my mom loves your products. She also loves me so much that I receive **Stress Free Calmplex** tablets daily to help reduce my stress. You see my story is a special one...

I have a job each day to help foster dogs that are rescued to become friendly with other dogs and relax so they can be adopted into a new "forever home" by special families. This is a tough job for a dog like me, I can become very attached to these fosters and want them to stay at my house forever. When the fosters were adopted and left our home I became very stressed. Although my mom tells me we need to keep our home and hearts open for other rat terriers in need, this was a hard time for me. I share my mom with these foster dogs and my mom shares my **Stress Free Calmplex** with the fosters who may need them. Some foster dogs need extra help to settle in and these treats work great for them too! She even recommends your products to the new adoptive families.

Sincerely,
Amber, Pennsylvania (Four Paws Amber's Legacy)

Amber,
the foster dog helper!

Astaxanthin

BUY 2 GET 1 FREE!

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color.

Intense physical activity causes fatigue and soreness in dogs due to the creation and release of free radicals into their muscle tissue.

Astaxanthin visibly improves your dog's performance, both physically and internally, by increasing immune markers as well as decreasing DNA damage and C-reactive protein levels, while also reducing the risk of clogged arteries and providing other cardiovascular benefits.

Astaxanthin has become a supplement of choice in the grueling world of sled dog racing – imagine what it can do for your dog!

PRODUCT HIGHLIGHTS

- Helps maintain peak performance; increased endurance, energy, and strength
- Supports healthy cardiovascular function for working, sport, and active dogs
- Supports the body in recovery from exercise
- Supports and protects healthy gums
- Supports skin health during UV and sun exposure

SUCCESS STORIES

Cori

Sully

No substitute for Springtime

I have been feeding my dogs **Fresh Factors**® for over 20 years. My current corgi - Sully - is sleek and healthy with boundless energy. We lost Cori - our rescue corgi - at 19. She was healthy and energetic until just 6 months before she passed. All of my dogs have also been given the dried **Duck Feet**. I order extra of all so I give some to anyone who asks why they are so healthy.

– Susan S., Maryland, 12/30/22

★ Trustpilot

"13-year-old ... now has more energy than a two year old."

Dear Springtime,

Just wanted to tell you how much we LOVE **Fresh Factors**! We started using them several years ago with an older dog that had been retired from competitive events because he was showing his age, and just didn't seem to be feeling up to it. After a couple weeks of **Fresh Factors**, he really perked up and was able to go back to training and competing! It was amazing, the difference it made.

We are currently giving **Fresh Factors** to my 13-year-old Border Collie, Rev, who now has more energy than a two year old. I can definitely tell a difference if he misses getting his **Fresh Factors**.

We recommend them to a lot of our clients as well. The remarkable effect **Fresh Factors** has had on several of our dogs has made me want to try them myself!

– Lori H., Oklahoma

Fresh Factors Helped Duke Beat the Odds

Dear Springtime:

At 6 months of age, my black Labrador, Duke, was given three years to live. He suffered from severe joint issues. After much success with administering **Fresh Factors** to my mom's Lab & Golden Retriever, I decided to try it out on Duke. We lost my boy last month at age 13. He far exceeded the initial estimate and lived a long, happy, healthy life starting off every day of his life with **Fresh Factors**. My whole family has witnessed the success of this product and swears by it. Thank you for giving me an additional 10 years of happiness with my best friend.

– Vicki N., California

Joint Health Chewables

BUY 2 GET 2 FREE!

Support healthy hips and joints with proven ingredients, including chondroitin sulfate, glucosamine HCl, MSM, hyaluronic acid, and manganese. Some dogs need more support as they age and many find giving a combination of **Joint Health Chewables** and **Fresh Factors®** to be an excellent upgrade.

PRODUCT HIGHLIGHTS

- Supports normal lubrication in joints for ease of movement
- Helps keep tendons & ligaments healthy & flexible
- Maintains healthy hips & joints
- Helps with mild discomfort associated with aging
- Supports cartilage health
- For the powdered version of this product, check out our **Joint Health OA +** on p. 58

Joint Health Chewables & Fresh Factors!

SUCCESS STORIES

"Lola remained active ... her entire 15 years ..."

We have kept Lola and Lexi on your **Joint Health Chewables** ever since we adopted them. Lola remained active, without any joint issues, her entire 15 years and Lexi, who is now 8, is a very active ranch dog and can handle a full day of activity without any soreness.

– Jeff S., Oregon

"... lessen the joint problems large dogs can have."

Dear Springtime,

On our most recent visit to our vet, the vet commented on how nice the coat of my eight-year-old Saint Bernard, Tillie, was. She said it is the quality of a much younger dog. Both Tillie and four year old Fiona are therapy dogs, so feeling soft is a plus. I give them **Fresh Factors** and **Joint Health Chewables** because they are BIG dogs and want to prevent and lessen the joint problems large dogs can have. Both are happy and healthy, enjoying life and I feel your products add to that. I often suggest your company to others!

– Bonnie & Steve M., North Carolina

"THANK YOU for a product that exceeds in every area."

Dear Springtime,

I rescued a dog off the streets in Brownsville, TX last year. He was in horrible shape. Many issues to deal with. For the last few months, he appeared stiff in his hind quarters when he got up from a nap. This increased over a short period of time. X-rays showed no hip issues, so we assumed it was due to a past injury.

My trainer (for behavioral issues) recommended your product, **Joint Health Chewables**. I purchased your product with a great Buy 2 Get 2 Free Special. I tripled dosed him for a week, then went to double dosing for another 2 weeks. The difference is AMAZING. My husband was so impressed, he asked me to order the **Joint Health Capsules for People** to support his knees. I did today! I do not write testimonials about products, because I'm never that impressed. This time I just had to write. THANK YOU for a product that exceeds in every area. AMAZING!!

– Anne R., Texas

Combo - Fresh Factors® & Joint Health Chewables

Combining **Fresh Factors** and **Joint Health Chewables** gives dogs a powerful one-two punch for life-long health. They get **Fresh Factors** for supporting healthy skin, digestion, and joints, plus **Joint Health Chewables** to keep joints lubricated, flexible, and healthy. Using these highly palatable products together works great.

PRODUCT HIGHLIGHTS

- Helps build & maintain strong joints and hips
- Supports healthy and flexible tendons & ligaments
- Great for all ages, including puppies
- Supports digestion & immune health
- Maintains healthy skin and muscle tone
- Promotes an active lifestyle

Dear Springtime,

I ordered your **Fresh Factors** and **Joint Health Chewables (Combo)** for our 11-year-old greyhound, Bella. Even our regular dog-sitter asked what had changed because she was much more bouncy and energetic.

We recently brought home a second greyhound, Kirby, who came to us with red, scabby patches on his chest and thighs and dry skin. In less than 2 weeks after starting **Fresh Factors**, Kirby's skin is normal and he has stopped scratching. We are hooked!

SUCCESS STORIES

Ringo is full of energy!

Dear Springtime,

We rescued Ringo 3 years ago. We started giving him **Fresh Factors** and **Joint Health Chewables** immediately. Ringo loves to hike with us and his healthy joints keep him going strong. Ringo is 8, but runs like a puppy! Thank you, **Springtime**, for keeping Ringo healthy and full of energy!

– Sue A., Colorado

Significant Effect on Discomfort

Dear Springtime,

My neighbor, a well-regarded dog breeder, has been using your products for her dogs for years. I never purchased any for my dog Poppy, until this year when she turned 12 and started to show signs of physical wear. She went from running and playing to just lying on the couch.

I started her on **Fresh Factors** and **Longevity**, but the boswellia in **Advanced Hip & Joint Chewables** seems to have the most significant effect on any problems she has endured because of her aging joints. She is happy and seems to run more easily. She can now jump up and down without the “oof” she was making before she started the **Advanced Hip & Joint Chewables**. She’s smiling more, and she’s more playful, even playing with the cat while she grins.

I am not a vet. I am not a medical expert. I am not a breeder. But I know this: I love my dog, and now she feels better. My beloved Poppy is happy! Thank you.

– Patty K., Massachusetts

“... so much more active ...”

Dear Springtime,

My Pug is so much more active after taking **Advanced Hip & Joint Chewables** and **Fresh Factors**. She is doing much better and her condition has not worsened.

My little girl, Moon, and I thank you for your wonderful products for our fine furry friends!

Sincerely,
Angeline M., Nevada

Joint Health OA +

Joint Health OA + is designed to support all the structures in a joint; cartilage, synovial fluid, ligaments, and tendons. Chondroitin sulfate, glucosamine, and MSM support healthy hips and joints, while hyaluronic acid helps maintain joint lubrication and manganese promotes bone health. Combined, these ingredients will provide your dog's joints with complete support to keep them active. **Joint Health OA +** is the powdered version of **Joint Health Chewables**, making it an economical choice.

PRODUCT HIGHLIGHTS

- Supports normal lubrication in joints for ease of movement
- Helps keep tendons & ligaments healthy & flexible
- Maintains healthy hips & joints
- Helps with mild discomfort associated with aging
- Supports cartilage surface health
- Great for growing or aging dogs

SIZE	½ SCOOPS*	\$/½ SCOOP	TOTAL
1 lb	505	12¢	\$59.50
Buy two 1 lb jars get ONE FREE	1,515	8¢	\$119.00

*Approximate number of scoops. Density may vary.
Available as a free bonus item. See page 49.

PRODUCT FACTS

Active Ingredients per ½ scoop (900 mg):

Methylsulfonylmethane (MSM)	225 mg
Glucosamine HCl (shellfish source)	159 mg
Chondroitin sulfate (bovine source)	114 mg
Ascorbic acid (vitamin C)	96 mg
Hesperidin	30 mg
Citrus bioflavonoid complex	24 mg
Hyaluronic acid	5 mg
Manganese	2 mg
Rutin (vitamin P)	1 mg

Inactive ingredients: Carrot powder.

Directions for Use:

Daily Maintenance Dose:

Good: ½ scoop per 20 lb body weight

Better: 1 scoop per 20 lb

Best: 1½ scoops per 20 lb

Important: For best results, start off with just a sprinkle for the first few days and increase gradually. Do not be discouraged if the dog does not take to the change immediately. Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity, or if faster, more dramatic benefits are desired. Larger doses are recommended for older dogs.

SUCCESS STORIES

“... saw a profound change with her within only two weeks.”

Dear Springtime,

I wanted to write to you and thank you for the years of support that your product, **Joint Health Chewables**, gave my beloved German Shepherd Hilda. Hilda developed joint issues around the age of two years old. After much research, I ordered Hilda **Joint Health Chewables** and saw a profound change with her within only two weeks. She was able to run again, climb stairs (she didn't even want to go up one step before starting her on the product), enjoyed swimming daily, and lived a good, healthy life.

I kept Hilda on the **Joint Health Chewables** supplements for the remaining seven years of her life. I truly believe that without your product, Hilda would not have had the quality of life she did. This product made such a difference in Hilda, and I have recommended your products to every pet owner I know. I don't know how to thank you.

Sincerely,
Nancy D., Michigan

Three Cheers for Joint Health Chews!

Dear Springtime:

I was so pleased when we received Joey's **Joint Health Chewables**. This product came highly recommended by our neighbor as I watched his 9-year-old Golden Retriever do the "zoomies" round and round their front yard.

Our 7-year-old Bernese Mountain Dog Joey (a.k.a. Scrumptious) was having a lot of trouble getting up from a laying position. So I doubled his dosage as you suggested. I am actually seeing improvement in just three days!

Joey has been clapping since he was 11 months (yes, he actually sits and claps). Since about 3 months ago, he has been unable to clap for me. Yesterday, I asked him to clap, and without hesitation he did three perfect claps! I got tears of joy!

I am so thrilled, because if he is feeling this much better in just three days, maybe my Scrumptious will soon be doing the zoomies around the yard like our neighbor's dog.

– Maria B., California

SUCCESS STORIES

"... racing up the hill again like a youngster ..."

Once again I have turned to **Springtime** when my Norwegian Elkhounds need a little help ... I currently have two elkhounds, Mojo age 9 1/2, and Chilly who just turned 9. I got these two in the middle of their lives, both retired show dogs, and Chilly also had two fabulous large litters. They love to play and wrestle and are very bonded. I noticed Mojo was starting to show more effort in arising after lying down for a little while and slowing down when running. He is a tall boy, and lanky, and I suspect he is showing signs of arthritis. I have used your wonderful Joint products in the past for my elkhounds doing agility and am so happy now for Mojo ... I started him on the **Springtime Advanced Hip & Joint Supplement** for dogs. My large front yard is a hill and I'm happy to report that Mojo is racing up the hill again like a youngster and can hold his own when playing with Chilly! I'm giving her a small dose too now that she is none. I am a firm believer in **Springtime** products and refer other dog owners to give them a try if their dogs are showing signs of trouble. Thank you so much for your products ... They are a godsend for my dogs.

– Kari O. (Chilly and Mojo too!), Wisconsin

"...prime health and condition..."

Dear Springtime,

We use your **Advanced Hip & Joint Formula** and **Bee Pollen**. My Newfoundlands get these products from six months on thru their lifetime. UKC CH HarborWinds StarrBurst (Sydney) is pictured in prime health and condition, thanks partly to your product!

Newfoundly,

Christine K. W., Wisconsin (HarborWinds Newfoundlands)

Kasha Is Like a Puppy Again!

Dear Springtime,

Our 6½-year-old German Shepherd, Kasha, had stiffness in her legs and back. I found your **Advanced Hip & Joint Chewables** and started giving them to her immediately. Within one week, she was acting like the little puppy she was before. She is back to playing ball three times a day. We love that this product is natural and works so well on her. Thank you so much for giving us back our sweet little girl with her energy and spirit.

– Judith F., Pennsylvania

SPRINGTIME

Advanced Hip & Joint Chewables **BUY 2 GET 2 FREE!**

When your dog says "ouch," **Springtime Advanced Hip & Joint Chewables** are the answer. Boswellia extract is especially good for maintaining comfort and mobility associated with aging or post-exercise recovery. Combined with a generous dose of chondroitin sulfate and other high-grade ingredients, such as MSM and glucosamine, for overall joint health.

PRODUCT HIGHLIGHTS

- Keeps healthy dogs active
- Supports cartilage health
- Promotes comfort and mobility
- Support for joint stiffness after athletic activity & competition
- Natural way to maintain joint lubrication
- Chewable tablets, flavored with real beef liver

Dear Springtime,

My 10-year-old chocolate Lab, Fisher, has struggled with stiffness and general joint issues in all four legs her entire life. She has always been an active dog with a strong spirit but with four surgically repaired legs we had to manage her regularly with medications and she would have issues for a day or two after hiking or even chasing a ball.

A few years ago, my mom – a former veterinarian – saw an ad for **Springtime Advanced Hip & Joint Chewables** and recommended that we give it a shot. It has changed her life.

At 10 years old she's as active as she was as a puppy. I attribute her continued activity and overall health to **Springtime Supplements**. I would highly recommend **Advanced Hip & Joint Chewables** to anyone with an older dog or a dog with joint issues.

– Ben G., Virginia

Directions for Use: Administer daily. Please introduce gradually (over 5-10 days). Tablets may be broken into pieces for small dogs.

Amount may be doubled or tripled and preferably repeated morning and evening after strenuous activity or if faster, more dramatic benefits are desired. Larger amounts are recommended for older dogs.

SUCCESS STORIES

Excellent quality supplements

The quality of this company's supplements is unsurpassed [in my opinion]. Not only are the ingredients healthy and pure (you can tell a lot by sniffing), but the difference in my dogs' health is obvious. I have my 3rd senior dog on **Longevity** and it makes his life so much more comfortable. Being a 60 lb tripod, this is of the utmost.

– Tamara D., North Carolina, 2/24/2023

★ Trustpilot

.....
“... a huge difference in his overall health.”

Dear Springtime:

I've purchased several supplements for my dogs before but nothing as effective as **Springtime**. I've used **Springtime** for 3 three years now. I now even have my family buying **Springtime** products. It doesn't matter what you buy, it's top quality and you won't be disappointed.

I had a 10-year-old German Shepherd named Vaughn, who began having some issues in January of 2016. I was devastated. I went to a couple of vets who told me the same thing, which was that my best friend was most likely going to leave us soon. I wondered if there was anything I could do to help Vaughn be comfortable, besides what the vets were giving. Vaughn was beginning to just lay around, not wanting to get up to greet us at the door as he always did. I stumbled across a breeder's website that uses your supplements and swears by them.

Springtime recommended **Longevity** and **Advanced Hip & Joint Chewables** and I started Vaughn on them immediately. I could not believe my eyes. He literally turned into a different dog. He began playing ball again, something he had not done in months. He would greet us at the door when coming home. And although the disease was slowly causing paralysis of his hind legs, I could notice a huge difference in his overall health. Unfortunately, the inevitable happened. We lost my baby a few months later. It was one of the most difficult times in my life, to lose Vaughn. He grew up with our children and was a protector for all he loved. I cannot thank your company enough for giving me the best, last months with our baby. Vaughn felt the best he could, using **Longevity** and **Advanced Hip & Joint Chewables**. I am forever grateful.

– Sarah B. G., Texas

SUCCESS STORIES

“... flea and tick free for 8+ years ...”

Great customer service and supplements! ... I have been getting **Bug Off Garlic** and **Longevity** for my dogs for many years and swear by them! My Goldendoodles have been flea and tick free for 8+ years and the **Longevity** had been an excellent choice for our 8 y/o to help him with his joints and digestion!

– Linda D., Virginia, 2/24/2023

★ Trustpilot

“... definitely deter ticks and mosquitoes.”

We have been customers of **Springtime** products for many years. We are huge fans of the **Bug Off Garlic Chewables** and give them faithfully on a daily basis to our beagles, Cletus and Lily. The **[Bug Off] Garlic Chewables** definitely deter ticks and mosquitoes. We have yet to have their veterinarian find a flea on them! We feel we are providing the very best to our canine companions.

Thank you for quality products that are made in the USA.

– Jill & Sam H., Pennsylvania

“The quality...is impressive and they REALLY work!”

Dear Springtime,

This is Ozzie. She is my youngest Labrador Retriever. As a breeder of Labradors, I rely on several of **Springtime's** fine products. I take a holistic approach to raising my Labs and keep things as natural as possible, so **Bug Off Garlic** is a must in their diet. I do not use topical chemicals or oral medications to repel ticks and fleas and **Bug Off Garlic** keeps my 'pack' free of internal parasites. I keep **Bee Pollen**, **Omega 3-6-9**, and **Skin & Coat Oil** on hand at all times. The quality of **Springtime** products is impressive and they REALLY work!

I had a phone call just last week from someone that was on the **Springtime** website, noticed a picture of my husband and me with our Labradors, and wanted to know if the 'testimony' was really real. I get several calls a year from people that see my dogs on the website. They call to ask about the quality and effectiveness of **Springtime** products and I am always happy to sing the praises of **Springtime** and their fabulous products.

Sincerely,

Sandy S., West Virginia (Red Barn Ranch and Labradors, LLC)

J-Flex Concentrate for Dogs & Cats

J-Flex Concentrate was **Springtime's** first joint health product, and today it's still the most cost-effective joint health product on the market. **J-Flex** is pure, high-grade chondroitin sulfate – a natural ingredient for healthy joint lubrication and helps provide support for a normal inflammatory response after workouts. **J-Flex** supports mobility and comfort, especially for aging animals. A tasteless and odorless powder, **J-Flex** is easy to give to even the pickiest dogs and cats.

PRODUCT HIGHLIGHTS

- Helps support healthy cartilage & joint tissue
- Cost-effective, single-ingredient supplement
- Supports joint lubrication for healthy mobility and flexibility
- Supports a normal inflammatory response for comfort issues
- Easy-to-administer powder (virtually tasteless & odorless)

Longevity

BUY 2 GET 1 FREE!

Longevity is our most comprehensive supplement for dogs of all life stages. The formula is designed to support growing or aging joints, promote healthy digestion, immunity, skin and coat, and can boost the overall well-being of any dog. **Longevity** is especially useful in supporting the body's daily detoxification process, which helps dogs defend against common environmental toxins.

PRODUCT HIGHLIGHTS

- Supports healthy, flexible hips & joints
- Maintains elasticity in tendons & ligaments
- Aids immune system and energy levels
- Helps maintain healthy teeth & gums
- Promotes a vibrant coat & nourished skin
- Deodorize & neutralize urine (reduce yellow grass spots)
- Benefits dogs of all ages

"Surprised by Longevity!"

I tried **Longevity** for my 3.5 yrs. old German Shepherd Ben. For the first time in months he climbed the two flights of stairs to greet me in my room after being on **Longevity** for about a month. I was elated!! Later, he

came up the stairs again and greeted me in the kitchen for a favorite treat ice. I'm so happy!

"Happy campers!"

Dear Springtime,

Gunner and Sadie love their **Longevity**! They are 10 years young and don't have many complaints. Happy campers!

– Sheila J., Oregon

Rescue Uses Longevity to Give Pups a Good Start

Dear Springtime,

I am so glad I found **Longevity**! I foster rescue dogs, and they are usually underweight and have weak immune systems. I started using **Longevity** for its nutritional support of the immune system. I add it to a quality food to help give pups a good start. I have seen good results in health and coat.

"I foster rescue dogs, and they are usually underweight and have weak immune systems. I started using Longevity for its nutritional support of the immune system."

I believe **Longevity** gives them a better chance of staying healthy and whole. I'm including photos (right) of a female pup, showing before and after three weeks on **Longevity**. This little girl was weak and thin when she came in. But she was strong and healthy when she left to find her adoptive home.

– Carol M., North Carolina

A female puppy enters the rescue underweight...

... and after 3 weeks on Longevity, she is strong and healthy for her adoptive parents.

SUCCESS STORIES

"Thank you, thank you, thank you!"

Dear Springtime,

I just can not thank you enough for your **Longevity**. My dear Marley had this issue for years, after he would eat or drink he would burp and spit up. It was getting worse with more and more substance coming up. I tried everything over-the-counter and prescription, but nothing worked. I spent so much money and time cleaning up. Then I tried your **Longevity**! I purchased one container first because Marley is a very discriminatory eater. I thought he will not like it. He does not like it, HE LOVES IT!! He has stopped spitting up, his itching has stopped due to a yeast condition on his skin, and it is easier for him to get up! These are the things I have witnessed. I am sure **Longevity** is doing a lot more internally and helping him feel better. Thank you, thank you, thank you!

– Jude M., Arizona

"... Spirulina Chewables are a treat ..."

Dear Springtime,

I have been ordering from **Springtime** for years now and have also taken every opportunity to tell others about your company and great supplements! I recently realized I have never told YOU how pleased I have always been with the products.

I have a small Rescue/Rehab for a variety of animals and many have been the recipients of your formulas. I currently have 17 dogs and one of my favorite additions to their diet is the **Longevity**. I raise all my giant breed pups (Wolfhounds and Danes) on this, as optimal nutrition is extra important for the fast growing guys. Nearly all my critters, dogs and otherwise, think the **Spirulina Chewables** are a treat, and really, anything I have ever ordered is top quality and well accepted by all.

I have most recently plugged **Springtime** on one of my forums and I know you have received numerous orders! I have attached a few pics of a couple of my "**Springtime**" guys also. I operate on a shoestring budget, but their supps are a priority whenever I can spare the cost. Thanks for being a company I can count on and recommend with pride!

– Janice W., Arkansas (Rocky Ridge Refuge)

"His mind seemed sharper, his legs were stronger..."

Dear Springtime:

Humphrey has been through a lot. We adopted him at 10, but I've known Humphrey all his life, and every morning he has been part of a mile and a half beach walk with a group of dogs and their people. His enthusiasm for participating in life hadn't waned, but he just couldn't handle the physical demands. A neighbor recommended **Longevity** and within two days of starting him on it, it had life-changing effects. His mind seemed sharper, his legs were stronger, and he was able to do our morning beach walks with enthusiasm!

– Lisa D.

"I was giving Alfie two a day for a general immune boost, but they are cleaning his teeth, too!"

Dear Springtime,

Just wanted to let you know that my dogs are receiving an unexpected benefit from eating the **Spirulina Chewables**. In a recent annual check up, the vet remarked how clean the teeth of my 9-year-old Springer-Lab mix were for his age. I started thinking, and all I could figure was that it must be from chewing the **Spirulina Chewables**!

I was giving Alfie two a day for a general immune boost, but they are cleaning his teeth, too! Now I give them to my 3-year-old Corgi/Beagle mix, Jenny, too! Thanks, **Springtime**.

– Kathi F., Illinois

SPRINGTIME

Bee Pollen

Bee Pollen was the first supplement marketed by **Springtime** back in 1979. After over 44 years, it is still one of the best ways to maintain healthy dogs.

PRODUCT HIGHLIGHTS

- Supports healthy muscle with natural plant sterols & growth factors
- Helps maintain healthy blood count
- Supports the immune system
- Immune support contributes to seasonal comfort
- Antioxidants help eliminate free radicals

"Four years of suffering GONE!"

Dear Springtime,

This is our big boy, Max. He's five. Since he was a year old he has suffered terribly from allergies. We tried everything we could think of – anything to save him from pure misery, but nothing was working. So one day, after searching for natural answers, I found **Springtime**. I can't tell you enough how wonderful this has been for Max's life. Four years of suffering GONE!

I Googled and found that **Bee Pollen** helps manage allergies. His fur is coming back full and thick, and his joy level is off the charts. Can you imagine how we feel? THANK YOU!

– Debbie K., Oklahoma

"I am astonished."

Dear Springtime,

Months back my Corgis, Callie and Cooper, needed digestion support. We had struggled for months and had done lab testing, food changes and so on with very little difference. Then finally, we tried **C-Complex**, and within a few days, I saw normal stools! Wow!

Later, we stopped the **C-Complex**, and all other supplements for a while.... However, both Callie and Cooper had injured themselves while playing, and were pretty uncomfortable. I decided to start sprinkling **C-Complex** on their food one Saturday morning, and did it again that night. We got up on Sunday morning to both Callie and Cooper running through the house! Both were totally putting their weight on all four legs! I am astonished.

I am sharing with my fellow Corgi owners. Thank you!

– Lori H., Illinois

Bon A-Pet-Treat!

Made in the USA

SPRINGTIME TREATS

Real meat treats that dogs love.
Nothing more, nothing less.

The typical supermarket dog treat is a processed, molded, dyed concoction of mystery ingredients. Our loyal companions deserve better and that's why we created a line of **Springtime Treats**.

Your dogs will love these delicious, all-natural treats, with the flavors and chew to satisfy their primal cravings. And you'll love giving your dogs a natural treat that is made in the USA with high quality ingredients, like duck and beef – and NEVER any fillers, preservatives, or dyes.

Real letters
from
real people...

"My dogs love the **Beef Liver & Coconut Cookies**, and I feel good about giving them..."

– Martha McCormick, South Carolina
(Asgaard Kennel Bernese Mountain Dogs)

"They are seriously obsessed ... hands-down their favorite treat!"

Two pictures of my dogs enjoying your **Duck Feet**. They are seriously obsessed with them and are hands-down their favorite treat! I even believe my Westie's teeth look a bit whiter after enjoying one every other day for a few weeks now. And Desi gets squinty eyed, she's so excited when she gets one! THANK YOU!!

– Lauren, Ohio

Beef Trachea

Dogs LOVE to chew! Why not use a healthy chew that keeps their teeth and gums clean and is a natural source of chondroitin sulfate and glucosamine? Our oven-dried **Beef Trachea** is delicious and chewy enough to keep dogs happily occupied for a while.

PRODUCT HIGHLIGHTS

- Oven-dried for best flavor
- Minimal odor
- Supports healthy teeth & gums
- Supports joints & connective tissues
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

“Especially tasty in the snow!”

I love the **Beef Trachea** treats from **Springtime!** Especially tasty in the snow! Woof!

Bully Sticks

Springtime Bully Sticks are made from 100% U.S. beef with no added dyes, chemicals, or preservatives. Chewing is a natural behavior in dogs, but we would prefer they chew on safe, healthy treats rather than less than desirable substitutes like our new leather shoes or the dining room table legs. **Springtime’s** line of long-lasting, natural **Bully Sticks** encourages healthy chewing habits, while keeping dogs happy and occupied (making dog owners happy as well!). And **Springtime Bully Sticks** work great as a dental treat, keeping gums and teeth healthy without additives or sugary carbohydrates.

Sourced and made in the USA, our **Bully Sticks** are a safe alternative to chemically laden, potentially dangerous products like many rawhide products. Our lines of **Bully Sticks** are 100% digestible, low in fat, gluten-free, and a good source of protein.

PRODUCT HIGHLIGHTS

- Made from 100% U.S. beef
- Minimal odor
- Supports healthy teeth & gums
- Single ingredient – nothing added
- 100% digestible
- Low in fat, gluten free, and a good source of protein

6 BULLY STICKS PER BAG

VARIETY (SIZE)	\$/EACH	TOTAL
Choice (5" - 6")	\$4.96	\$29.75
Choice (11" - 12")	\$9.88	\$59.25
Premium (5" - 6")	\$5.63	\$33.75
Premium (11" - 12")	\$10.96	\$65.75
Curly (5" - 6")	\$5.83	\$35.00
Jumbo (5" - 6")	\$7.96	\$47.75
Jumbo (11" - 12")	\$15.79	\$94.75

BULLY STICK VARIETIES

Our four delicious varieties of **Bully Sticks** are 100% natural beef pizzle, made in the USA without any dyes, additives, preservatives, or other chemicals. Finally, a healthy, natural chew for dogs.

Our **Bully Sticks** are triple-washed naturally without any chemicals to minimize odor. **Springtime's Premium** and **Jumbo Bully Sticks** are hung to dry, allowing any natural juices to drip off, ensuring a low-odor product. **Springtime's Choice Bully Sticks** are laid flat and oven-dried, retaining some of the natural juices, making them extra tasty for dogs.

Choice - Best Tasting

Choice Bully Sticks are oven-dried in their natural casings for extra flavor! All the trimmings left on the **Bully Stick** creates a great natural texture for helping to keep teeth clean. These **Bully Sticks** are laid flat when dried, so some of the natural juices may remain, making them extra tasty for dogs yet low-odor.

Premium - Long Lasting

Premium Bully Sticks are extremely tasty and low odor. Denser and longer lasting than our **Choice Bully Sticks**, the **Premiums** are hardy enough for the big chewers, yet still chewable for smaller mouths. **Premium Bully Sticks** are food-grade, triple-washed, and hung vertically to dry, ensuring minimal odor.

Curly - A Fun Twist

Curly Bully Sticks are a fun and yummy challenge for the dog who really loves to chew. Our **Curly Bully Sticks** are the same low-odor, high-quality beef pizzle you have come to expect from **Springtime**, but with a twist! These **Bully Sticks** are perfectly curled and triple-washed for maximum fun and minimal odor.

Jumbo - Big Chew for Big Dogs

Low-odor, free-range **Jumbo Bully Sticks** are extra dense and thick for maximum chewing and boredom busting. Big dogs or heavy chewers love to sink their teeth into this flavorful, long-lasting treat. Top of the line in taste and quality, these **Bully Sticks** are easily digestible, with no additives or preservatives.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

Dog Cookies – Beef Liver & Coconut, Duck, and Chicken & Sweet Potato

Springtime’s line of healthy, natural **Dog Cookies** are smokehouse-dried with premium ingredients for tantalizing taste. These savory meat treats are made in the USA with food-grade ingredients. No fillers, additives, dyes, by-products, chemicals, or preservatives. They come in three varieties: **Beef Liver & Coconut**, **Duck**, and **Chicken & Sweet Potato**.

PRODUCT HIGHLIGHTS

- Smokehouse-dried for rich flavor
- Can be broken up for training treats
- Good source of protein, low in fat
- Antioxidant, nutrient-rich
- Gluten free
- Sourced and made in the USA

Ingredients:

Beef Liver & Coconut Cookies: Beef liver, coconut, egg powder, and vegetable fiber.

Duck Cookies: Duck meat, egg powder, and vegetable fiber.

Chicken & Sweet Potato Cookies: Chicken meat, sweet potato, egg powder, and vegetable fiber.

NOTE: Store in a cool, dry place. Supervision is recommended, as with any chew or toy.

COOKIES

Three Delicious Varieties

Your dog will love this trio of cookies as a protein-rich treat or as a training reward.

Beef Liver & Coconut

Dogs come running for the taste of **Springtime's Beef Liver & Coconut Cookies!** These cookies are slowly dried at low temperature in vintage smokehouses for peak nutrition and flavor. Plus, they are full of vital nutrients to help maintain an active lifestyle.

Made with only three premium, food-grade ingredients: beef liver, coconut, and egg powder (a good source of protein that acts as a binder), this is a healthy treat with no fillers, by-products, dyes, chemicals, or preservatives.

Rich in antioxidants and B vitamins, liver is known to be beneficial for the nervous system, blood, and brain health. Coconut, a great source of fiber, folate, and a host of essential fatty acids, can help protect against cardiovascular and neurological diseases.

Duck

Dogs adore **Springtime's** delicious Duck Cookies. Low in fat and high in protein, duck meat is a rich source of vitamins, minerals, antioxidants, and healthy fatty acids. Duck meat is also an allergy-friendly alternative for dogs that are food sensitive to chicken or beef. **Springtime's Duck Cookies** are slowly dried at low temperature in vintage smokehouses for peak nutrition and flavor. Packed with vital nutrients, they can help maintain an active, healthy lifestyle.

Our **Duck Cookies** are made with just two premium, food-grade ingredients: duck meat and egg powder (a healthy protein that acts as a binder). This is a healthy treat with no fillers, by-products, dyes, chemicals, or preservatives.

Chicken & Sweet Potato

Your dog will flip for the combination of delicious chicken meat and nutritious sweet potato in **Springtime's Chicken & Sweet Potato Cookies.** Smokehouse-dried for rich flavor, our **Chicken & Sweet Potato Cookies** are a low fat source of protein that make for a tantalizing training treat or delicious reward.

You won't find any chemicals, fillers, additives, dyes, by-products or preservatives in our **Chicken & Sweet Potato Cookies.** That's because the food-grade ingredients are right in the name – plus a little protein-rich egg powder to hold everything together.

Sweet Potato Pieces

DOGS

COCKEYSVILLE, MD 21030

P.O. BOX 1227

SPRINGTIME

Dogs love the crispy, crunchy texture and delicious taste of **Springtime Sweet Potato Pieces**. Slowly oven-dried, sweet potatoes are rich in dietary fiber and healthy antioxidants, including carotenoids and vitamin A.

Sweet potato has been valued for its health benefits for thousands of years. Sweet potato (which is different than the white potato) helps maintain health and longevity with its abundant nutrients, such as vitamins A and C, vitamin B 6, magnesium, iron, potassium, calcium, and copper.

PRODUCT HIGHLIGHTS

- Healthy, crunchy sweet potato
- Slow-dried for best flavor
- High in dietary fiber & antioxidants
- Single ingredient – nothing added
- 100% digestible
- Sourced & made in the USA

SIZE	\$/OZ	TOTAL

SUPPLEMENTS FOR YOU!

**Same Quality Ingredients.
Same Great Results.**

THE SPRINGTIME STORY begins with natural supplements designed to help our animal companions feel better and be more active. Over the years, customers have marveled at the quality and performance of our products and wondered if they could get the same benefits.

And while the high quality ingredients in our pet products are safe for human consumption, we are proud to offer products formulated just for people. Same great raw ingredients, but in convenient capsule or tablet form.

Give them a try – you'll both be impressed with the results!

SPRINGTIME

Rutin (vitamin P)	5 mg
Other ingredients: Stearic acid, gelatin, and water. Contains crustacean shellfish.	

Suggested Daily Use:

Good: One per 100 lb body weight

Better: Two per 100 lb body weight

Best: Three per 100 lb body weight

"...within two weeks of resuming the capsules I was restored to my former comfort."

Dear Springtime:

Two or three weeks ago I realized I was reaching the end of my supply of **Joint Health Capsules**. I was prompted to [take them] by my Tae Kwon Do teacher who had seen what they did for one of her elderly horses. She took them herself after seeing the horse's enormous improvement.

I followed her example and the pain in my ankles gradually died away and my joints were no longer bothering me.

When I suddenly felt a pain in my knee I realized how foolish I'd been to abandon them. I started them again immediately and within two weeks of resuming the capsules I was restored to my former comfort.

– Janie, Virginia

Other ingredients: Dicalcium phosphate, microcrystalline cellulose, croscarmellose sodium, stearic acid, magnesium stearate, silica and film coat (hypromellose, hydroxypropyl methylcellulose, and polyethylene glycol).	

Suggested Daily Use: 1-4 tablets taken 1-3 times a day with meals according to personal need.

Please note: Consult your healthcare professional before taking this product if you are pregnant or nursing.

"...I enjoy my life again!"

Dear Springtime:

I have inflammatory issues. I would wake up in the middle of the night, and try to manage the household uncomfortably. My social life was at a standstill. At Christmas time, I tried **Boswellia Extract** tablets. I can't believe the difference in my life. I can actually go out and shop in a store, instead of being stuck in the house. My inflammatory response is maintained at a normal level, and I enjoy my life again!

I can now get up at my leisure without any issues, take care of my home in moderation, and feel so good again! Thank you, **Springtime!**

SPRINGTIME

Garlic Capsules for People

BUY 2 GET 1 FREE!

“Odorless garlic” is an oxymoron, kind of like “jumbo shrimp.” **Springtime Garlic Capsules** are definitely not odorless. When you open the jar and sniff, you will be impressed. However, if you take them at mealtime, you probably won’t get garlic breath. For best results, please take daily.

PRODUCT HIGHLIGHTS

- Supports and boosts the functions of the immune system[†]
- Regular daily use helps deter biting insects
- One of the world’s most powerful antioxidant foods
- Promotes friendly bacteria in the digestive tract[†]
- Provides cardiovascular health support & helps maintain healthy cholesterol[†]

Garlic (<i>Allium sativum</i>) (bulb)	670 mg
Other ingredients: Stearic acid, gelatin, and water.	

Suggested Daily Use: Best taken with food. As a dietary supplement, take one to three capsules daily. To help deter biting insects, we recommend at least three capsules per 100 lb body weight.

“...after hiking in very thick woods, not one tick!!”

Had to be the first to gush about your garlic tabs for people!! I am an avid hiker, year round. The bugs used to make Spring and Summer unbearable ... Enter **Springtime’s Garlic!!** I take it every morning after breakfast, along with your **Tonic Blend**. Today, after hiking in very thick woods, not one tick!! And I looked everywhere!! Or any other bug bite, and trust me when I say, the bugs were swarming!! **THANK YOU FOR MAKING SUCH INCREDIBLE PRODUCTS!!** I already tell people about your wonder supplements, and continue to take them myself.

Spirulina Tablets for People

BUY 2 GET 1 FREE!

The most widely used word to describe spirulina is “super supplement.” Here’s why: Spirulina contains a higher percentage of protein than meat, the highest whole food source of vitamin B12, more iron than beef liver, 25 times more beta carotene than carrots, more chlorophyll than alfalfa or wheat grass, and three times more omega 6 than evening primrose oil.

PRODUCT HIGHLIGHTS

- Supports healthy endocrine, immune, and nervous system function†
- Helps maintain healthy liver & kidney function†
- Great source of protein, helps satiate the appetite

SIZE	\$/TABLET	TOTAL
360	10¢	\$35.25
Buy two jars of 360 get ONE FREE	6¢	\$70.50

Available as a free bonus item. See page 49.

SUPPLEMENT FACTS (PER TABLET)	
Spirulina (<i>Arthrospira platensis</i>)	550 mg
Other ingredients: Microcrystalline cellulose and stearic acid.	

Suggested Daily Use: As a dietary supplement, take six or more tablets daily. **Spirulina Tablets** are a highly concentrated food that provides support to the endocrine, nervous, and immune systems. A healthy source of protein, **Spirulina Tablets** can be taken before a meal to encourage satiety.

Keeping Healthy with Good Nutrition!

Dear Springtime:

My husband and I have been taking **Spirulina Tablets** and we feel it is a great product. I volunteer at a nursing home with my dog, Jacob, and it is important for me to keep healthy. Since it has worked so well for my husband and myself, I now feed **Spirulina Tablets** to my four dogs.

Keep up the great products!

Bee Pollen for People

OUT OF STOCK

Bee Pollen for People contains powerful whole food antioxidants, vitamins, minerals and growth factors potentiated by massive amounts of live enzyme activity.

PRODUCT HIGHLIGHTS

- Gourmet-quality bee pollen
- Excellent source of live enzymes
- Hand-cleaned, mild, sweet – fruity/nutty flavor
- Mixed varieties of pollens provide a wide spectrum of essential nutrients
- Contains healthy antioxidants¹
- Great for everyone at any age
- Add to cereal or a smoothie for the ultimate power breakfast

SIZE	\$/OZ	TOTAL
3 lb	\$1.20	\$57.50

Suggested Daily Use: Please start with just a pinch and increase gradually to 1 or 2 rounded tablespoons (½–1 oz) per 100 lb of body weight daily. Highly recommended 1 or 2 hours before workouts.

Recommended: If stored at room temperature, best used within 6 months after opening. For longer storage, please refrigerate.

"This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease."

THE SECRET TO OUR SUCCESS...

Bee pollen is the foundation on which **Springtime** was built. Our founder, Dennis Hampt, had been using bee pollen for his own health for years when he discovered the positive impact that it had on his dog (see pg. 61). This gave him the idea to sell bee pollen for animals, specifically to horse trainers, whose careers depended on the optimal health of their animals. The trainers were skeptical at first, but the performance on the track was all the proof they needed that bee pollen was a difference maker! The company that became **Springtime** was born.

Bee pollen would end up being a key ingredient in other **Springtime** products for horses, and then dogs, and then for people. Today **Springtime** has a wide array of natural products, but **Springtime Bee Pollen** is still enormously popular, and bee pollen remains a key ingredient in some of our most popular and effective products.

CoQ10 for People

BUY 2 GET 1 FREE!

Coenzyme Q10 (**CoQ10**) is also called ubiquinone because it is so widespread (ubiquitous) in the body. Although it is naturally produced by the body and concentrated in the heart, **CoQ10** can be supplemented to support healthy heart function.

PRODUCT HIGHLIGHTS

- Supports normal heart function[†]
- Helps maintain healthy energy levels[†]
- Perfectly complementary to **Tonic Blend**

Suggested Daily Use:

Good: One softgel daily
Better: Two softgels daily
Best: Three softgels daily

* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Available as a free bonus item. See page 49.

SUPPLEMENT FACTS (PER SOFTGEL)

Coenzyme Q10 (Ubiquinone)	100 mg
---------------------------	--------

Other ingredients: Rice bran oil, gelatin, glycerin, purified water, beeswax, and titanium dioxide.

CoQ10: For Heart Health

The following summaries were published about CoQ10 by the Mayo Clinic, one of the best research hospitals in the world.

On CoQ10 Deficiency...

"CoQ10 is made naturally in the body, but deficiency may occur due to disease, low dietary intake, or high CoQ10 use by the body. Symptoms of deficiency include heart failure, high blood pressure, and chest pain. Depending on the cause of deficiency, supplementing with CoQ10 or increasing dietary intake may be effective."

On CoQ10 for Heart Failure...

"Research suggests that CoQ10 may be effective for chronic heart failure. Low blood levels of CoQ10 have been associated with this condition. CoQ10 has been used in combination with other herbs and supplements for chronic heart failure."

On CoQ10 for High Blood Pressure...

"There is good research to support the use of CoQ10 in the treatment of high blood pressure. However, more studies evaluating a higher dose for a longer treatment period are needed."

Astaxanthin for People

BUY 2 GET 1 FREE!

Astaxanthin is a reddish pigment that belongs to a group called carotenoids. It is found naturally in certain algae and is what gives shrimp, salmon, and other seafood their pink/red color. Oxidative stress causes damage to the cells, proteins, and DNA in your body. **Astaxanthin** is one of the world's strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.

PRODUCT HIGHLIGHTS

- Helps maintain peak performance; increased endurance, energy, and strength[†]
- Supports the body in recovery from exercise[†]
- Supports cardiovascular function and a healthy circulatory system[†]
- Supports skin structure, enhancing moisture levels and elasticity[†]
- Supports skin health during UV and sun exposure[†]
- Helps support a healthy immune response[†]
- Supports eye health[†]

SIZE	\$/SOFTGEL	TOTAL
90	76¢	\$68.25
Buy two jars of 90 get ONE FREE	51¢	\$136.50

SUPPLEMENT FACTS (PER SOFTGEL)

Omega-3 fatty acids (Distilled wild fish oil, flaxseed oil) Providing 180 mg of alpha-linolenic acid (ALA), 115 mg of eicosapentaenoic acid (EPA), and 80 mg of docosahexaenoic acid (DHA)	375 mg
Omega-6 fatty acids (Borage seed oil, flaxseed oil) Providing 164 mg of linoleic acid (LA) and 72 mg of gamma linolenic acid (GLA)	236 mg
Omega-9 fatty acids (Borage seed oil, flaxseed oil) Providing 136 mg of oleic acid (OA)	136 mg
Vitamin E (as mixed tocopherols)	10 IU

Inactive ingredients: Gelatin, glycerin, and purified water.

Suggested Daily Use: One to three softgels per day with meals.

[†]This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

INGREDIENT GLOSSARY

A selection of some of the time-tested ingredients used in Springtime Supplements.

	ASCORBIC ACID (VITAMIN C) The “master vitamin” supports a healthy immune system, a normal inflammatory response, and tissue, tendon, and ligament health. Vitamin C is also an antioxidant that plays one of the most important roles in the body. It is needed to maintain the health of skin, cartilage, teeth, bone, and blood vessels. Plus, it is used to protect the body’s cells from damage.
	ASTAXANTHIN A reddish pigment that belongs to a group called carotenoids. Found naturally in certain algae, it is what gives shrimp, salmon, and other seafood their pink/red color. Astaxanthin is one of the world’s strongest antioxidants in free radical scavenging by 20x – 60x! It provides a unique and powerful defense from free radical damage to the brain, nervous system, and eyes due to its ability to cross the blood-brain and blood-retinal barrier.
	BEEF LIVER A rich source of B vitamins, iron and trace minerals which naturally support the body’s quest for health and energy.
	BEE POLLEN The male germ cell of plants, the most nutritious part. Contains powerful whole-food antioxidants, vitamins, minerals and hormones potentiated by massive amounts of live enzyme activity. Pollen contains greater concentrations of living enzymes than any other part of the plant. Scientists state that enzymes are absolutely essential for every biochemical function of the body.
	BIOTIN Biotin is a B vitamin that plays a key role in the production of skin, nails, and hair. The B complex vitamins, like biotin, help the body convert carbohydrates, fats, and protein into energy. Biotin is used by the body to maintain the health of skin, the digestive tract, and the nervous system.
	BOSWELLIA Boswellia (also known as frankincense) is made from the resin of the boswellia serrata tree. For thousands of years, boswellia has been prized for comfort support by helping the body maintain a healthy inflammatory response.
	CHONDROITIN SULFATE Chondroitin sulfate is a naturally occurring molecule found in the cartilage and connective tissues of people and animals. Chondroitin is the substance that enables cartilage to provide cushion to healthy joints, and is what the body uses to make new cartilage. Chondroitin also serves a vital role in the maintenance of healthy skin/coat. Chondroitin can be taken as a supplement for maintaining healthy cartilage, joint lubrication, skin/coat, and for a normal inflammatory response.
	CITRUS BIOFLAVONOID COMPLEX A biologically active antioxidant that helps optimize vitamin C absorption and utilization. Also known to support a healthy inflammatory response and cellular membrane health.
	GARLIC (AIR-DRIED GRANULES) Nutrient-rich and aromatic, air-dried granules are most well known as a non-toxic bug repellent, a natural detoxicant, and as a dietary sulfur. Garlic is nature's insect repellent. It is a powerful and safe way to protect your horse or dog from fleas, ticks, and other biting insects. Best of all, garlic doesn’t have the dangerous and painful effects common to sprays and spot-on chemicals for flea and tick control.

	GLUCOSAMINE Glucosamine is an amino sugar produced by the body for use in tendons, ligaments, cartilage, and in the fluid around the body's joints. Glucosamine supplements help support joint health in people, dogs, and horses by giving the body the additional glucosamine it requires to maintain healthy joint tissue and fluid.
	HYALURONIC ACID Hyaluronic acid is a naturally occurring gel-like substance belonging to the group of glycosaminoglycans (GAGs). It is present in different places in the body, but mostly in the connective tissue space and synovial fluid. Since the purpose of joint fluid is to lubricate, HA helps promote this function. Additionally, HA helps with the shock absorbing capacity of the joint and distribution of mechanical forces impacting the joints.
	KELP Kelp is a leafy form of brown-algae seaweed that absorbs a vast variety of nutrients and minerals present in the water around it. Kelp is a commonly eaten food in many places, especially in Japan where it has been used as a food and for health benefits for thousands of years. Kelp has gained popularity in recent decades as a supplement, because it is rich in vitamins (A, B1, B2, C, D and E) as well as minerals (zinc, iodine, magnesium, iron, potassium, copper and calcium). In addition to its nutritional value, kelp is known to support healthy skin/coat and for maintaining healthy weight and blood pressure.
	MANGANESE Manganese is a trace mineral that is essential for the formation of healthy cartilage and bone. It plays a vital role in metabolizing fats and carbohydrates, as well as synthesizing chondroitin sulfate. Manganese is part of the antioxidant enzyme superoxide dismutase (SOD), which helps protect against free radicals.
	MSM Methylsulfonylmethane is a naturally occurring sulfur compound found in plants, animals, and humans. Approximately one third of MSM is sulfur and MSM delivers an absorbable form of sulfur that the body needs for the production of cartilage. MSM is believed to support a normal inflammatory response and is widely used as a supplement for joint health.
	OMEGA/ESSENTIAL OILS Some of the systems that these nutrients help support are the nervous, immune, and cardiovascular systems. Omegas also help the body maintain healthy skin and joints.
	PANAX GINSENG Ginseng (panax ginseng) is a member of the ivy family that is renowned for the health properties of its roots. Ginseng is the most widely used of the botanicals referred to as adaptogens, which help the body combat mental and physical stress. Ginseng was used by the ancient Chinese and by Native Americans, and it has been used for thousands of years for a variety of health benefits. In fact, "panax" is Greek for "all healing."
	SPIRULINA Spirulina is a microscopic blue-green vegetable algae that supports healthy endocrine, nervous, and immune systems. Spirulina is a source of highly absorbable protein, mixed carotenoids, and other phytonutrients, B vitamins, GLA, and essential amino acids. Spirulina has emerged as an especially healthy whole food for humans and animals alike.
	YEAST – (ACTIVE LIVE YEAST) Active Live Yeast culture (<i>saccharomyces cerevisiae</i>) is a complete protein and super-supplement containing 18 amino acids, B complex vitamins, dietary fiber, as well as many other nutritional components and minerals. It contains additional functional and beneficial components such as beta-1, 3 glucan, trehalose, mannan and glutathione. Studies have shown that these components have potential health benefits, such as supporting healthy immune response and cholesterol.

SPRINGTIME'S TERMS AND CONDITIONS

BUDDHA

1969-1981

THE DOG THAT STARTED IT ALL...

Dear Reader,

The dog pictured above "who looks like a bear" is an Akita named "Buddha." He was my dog many years ago. Buddha suffered a broken leg when he was a puppy. By the time he was seven years old, he had developed crippling arthritis in that same leg. Rather than put him down, as recommended by two different vets, I experimented with health foods to try to help him. Feeding him certain natural foods proved to be a miraculous remedy. Not only did he recover, but he regained the power and strength that he had in his prime. He lived five more pain-free years before dying at the age of twelve.

Over the years, we have added other ingredients to the formula I had given Buddha and it has evolved into our ultimate, all-around chewable supplement for dogs – **Fresh Factors®**. A few years ago, we developed other chewable products that target specific needs for dogs as well.

More recently, we developed an exciting, powerful product called **Longevity**, which is a very highly evolved, powdered version of **Fresh Factors**.

I believe there are millions of dogs who can live longer, happier, and more productive lives for themselves and their loved ones. In honor of Buddha, who is the reason for **Springtime Supplements**, our mission is to help as many dogs as possible do just that. They give us everything they have. Feeding them the best we possibly can is a way for us to repay them.

Sincerely,

Dennis Hampt, Founder, Springtime, Inc.
